teach yourself to think is the classic work of intelligent self empowerment from world renowned writer and philosopher edward de bono our happiness and success depend on clear thinking but too many of us are compromised by confusion trying to do too much at once and not knowing what to do next in teach yourself to think edward de bono shows that good thinking depends on a simple five stage process that anyone can learn if they try it will enable you to assess your goals sort available information identify the available choices make a decision and finally turn thought into action this book offers brilliant advice for anyone who needs to be able to respond to and deal with a vast range of situations at work and in life quickly efficiently and intelligently an inspiring man with brilliant ideas de bono never ceases to amaze with his clarity of thought richard branson edward de bono invented the concept of lateral thinking a world renowned writer and philosopher he is the leading authority in the field of creative thinking and the direct teaching of thinking as a skill dr de bono has written more than 60 books in 40 languages with people now teaching his methods worldwide he has chaired a special summit of nobel prize laureates and been hailed as one of the 250 people who have

contributed most to mankind dr de bono s titles include classic bestsellers such as six thinking hats lateral thinking i am right you are wrong teach yourself how to think teach your child how to think and simplicity edwdebono com

the classic work about improving creativity from world renowned writer and philosopher edward de bono in schools we are taught to meet problems head on what edward de bono calls vertical thinking this works well in simple situations but we are at a loss when this approach fails what then lateral thinking is all about freeing up your imagination through a series of special techniques in groups or working alone edward de bono shows how to stimulate the mind in new and exciting ways soon you will be looking at problems from a variety of angles and offering up solutions that are as ingenious as they are effective you will become much more productive and a formidable thinker in your own right if more bankers and traders had read lateral thinking and applied the ideas of edward de bono to their own narrow definitions of risk reward and human expectations i suspect we would be in much better shape than we are sir richard branson edward de bono invented the concept of lateral thinking a world renowned writer and philosopher he is the leading authority in the field of creative thinking and the direct teaching of thinking as a skill dr de bono has written more than 60 books in 40 languages with people now teaching his methods worldwide he has chaired a special summit of nobel prize laureates and been hailed as one of the 250 people who have contributed most to mankind dr de bono s titles include classic bestsellers such as six thinking hats lateral thinking i am right you are wrong teach yourself how to think teach your child how to think and simplicity all now re issued by penguin edwdebono com

fully illustrated and containing dozens of thought provoking and enjoyable games supermind pack is a step by step course in thinking for doing the books covers topics such as creative thinking risk taking flexibility and behavior supermind pack is ideal for businessmen and women as an aid to producing effective business strategy follow up to dk s successful mind pack included are 96 page color book laminated value cards number cards playing pieces score cards dice

the world is full of problems and conflicts so why can we not solve them according to edward de bono world thinking cannot solve world problems because world thinking is itself the problem and this is getting worse we are so accustomed to readily available information online that we search immediately for the answers rather than thinking about them our minds function like trying to drive a car using only one wheel there s nothing wrong with that one wheel conventional thinking but we could all get a lot further if we used all four de bono examines why we think the way we do from a historical perspective and uses some of his famous thinking techniques such as lateral thinking combined with new ideas to show us how to change the way we think if we strengthen our ability and raise our thinking level other areas of our life both personal and business success will improve de bono is the master of the original big concept book and his enticement to us to use our minds as constructively as possible should appeal to a whole new generation of fans

the internationally bestselling guide to better thinking used by tens of thousands of people fully revised and updated the need for the six hats is based on an understanding of how the brain chemicals change with the mode of thinking using this method one major corporation reduced the time taken for multinational project discussions from thirty days to just two days argument is inefficient ineffective and extremely slow argument was never designed to be constructive the parallel thinking of the six hats is rapidly replacing argument around the world for two thousand four hundred years we have been content with argument which was never designed to be constructive discovering what is may not be the same as designing what can be

people spend a fortune on their bodies their faces their hair their clothes cosmetics plastic surgery diets gym membership everyone's trying to be more attractive but there's an easier way to become a beautiful person it doesn't have to be physical no matter how you look if you have a mind that's fascinating creative exciting if you're a good thinker you can be beautiful and being attractive doesn't necessarily come from being intelligent or highly educated it isn't about having a great personality it's about using your imagination and expanding your creativity and it's when talking with people that we make the greatest impact a person may be physically beautiful but when speaking to others a dull or ugly or uncreative mind will definitely turn them off in clear practical language de bono shows how by applying lateral and parallel thinking skills to your conversation you can improve your mind by learning how to listen make a point and manoeuvre a discussion you can become creative and more appealing more beautiful

western thinking is failing because it was not designed to deal with change in this provocative masterpiece of creative thinking edward de bono argues for a game changing new way to think for thousands of years we have followed the thinking system designed by the greek philosophers socrates plato and aristotle based on analysis and argument but if we are to flourish in today's rapidly changing world we need to free our minds of these boxes and embrace a more flexible and nimble model parallel thinking is an invaluable insight into the world of creativity de bono unveils unique methods of brainstorming and explains preconceived ideas of what creativity involves and is this book is not about philosophy it is about the practical and parallel thinking required to get things done in an ever changing world

the classic work about making the complicated simple from world renowned writer and philosopher edward de bono from confusing manuals to uninterpretable jargon and bureaucratic red tape modern life can be highly complicated and frustrating for many of us it is almost impossible to make sense of in simplicity lateral thinking guru edward de bono shows us how to bring clarity into our increasingly complicated lives through his ten rules of simplicity he encourages us to be creative and break down the complex into manageable and recognisable parts by making the complicated simple you will free up time reduce stress and make better decisions

the classic work on creativity and problem solving techniques that provide an alternative to just sitting around waiting for the muse to appear times educational supplement the first practical explanation of how creativity works this results oriented classic reveals how to move beyond a vertical mode of thought focused on following step by step logic in search of a single correct solution to tap the potential of lateral thinking which leads us to creatively generate multiple ideas a prominent scholar of psychology medicine and physiology who taught at oxford cambridge harvard and other world renowned universities edward de bono was the originator of the concept of lateral thinking and in this book he explains this method that can benefit problem solvers in any field this could be a very useful book for teachers and non teachers alike dr debono does not claim to be able to turn us all into miltons davincis and einsteins but his techniques provide an alternative to just sitting around waiting for the muse to appear the muse never appears to most of us hence the value of this book times educational supplement

the classic work about changing yourself and how others see you from the world renowned writer and philosopher edward de bono people spend vast amounts of money time and energy to achieve and maintain beauty and yet despite its undisputed importance few of us devote similar efforts to be interesting it is often thought that intelligence beauty and confidence make you more interesting this is not true being interesting is actually a state of mind in how to be more interesting lateral thinking guru edward de bono reveals how playing with ideas making connections speculating and using the imagination are at the heart of being an interesting person with seventy exercises that will help you bring humour insight and surprise to everyday situations this book will ensure that people not only find you fascinating company but also won't be able to forget you

the inventor of the process of lateral thinking offers a guide to enhancing creativity

the mechanism of mind presents edward de bono's original theories on how the brain functions processes information and organises it it explains why the brain the mechanism can only work in certain ways and introduces the four basic types of thinking that have gone on to inform his life's work namely natural thinking logical thinking mathematical thinking and lateral thinking de bono also outlines his argument for introducing the word po as an alternative to the word no when putting lateral thinking into practice drawing on colourful visual imagery to help explain his theories and thought processes from light bulbs and sugar cubes to photography and water erosion the mechanism of mind remains as fascinating and as insightful as it was when it was first published in 1969 this is a must read for anyone who wants to gain a greater understanding of how the mind works and organises information and how edward de bono came to develop his creative thinking tools

the must read summary of edward de bono's book serious creativity using the power of lateral thinking to create new ideas this complete summary of the ideas from edward de bono's book serious creativity shows that creative thinking is vital for business success and that creativity is something you can learn in his book the

author presents a rational and logical approach to creative thinking and introduces 12 tools and techniques that you can use by learning and applying the principles you will be able to develop the lateral thinking skills needed for innovative reasoning and ensure success added value of this summary save time understand the key principles expand your business knowledge to learn more read serious creativity using the power of lateral thinking to create new ideas to find out how you can develop your creativity and take your business to the next level

wisdom comes with living a long life full of rich experiences and can't be learnt right wrong in the textbook of wisdom bestselling author edward de bono lateral thinking serious creativity explains how you do not have to have lived forever to benefit from the experience of those who have full of thinking tools guidelines and principles this textbook encourages the use of values and emotions to guide you through life without allowing them to enslave you split into short digestible sections perfect for grazing rather than devouring textbook of wisdom is perfectly designed so you can return again and again mining for wise words to carry through life that will open your mind to creativity and new possibilities

first published in 1967 this remarkable title from one of history's greatest minds remains a must read in the world of creative thinking based on the tenet that an error can lead to the right decision de bono guides the reader through a series of non mathematical problems and puzzles all designed to help us analyse our personal style of thinking work out its strengths and weaknesses and to consider the potential methods that we never use there are three courses each five days long and each created to focus on a different style of thinking featuring the bottles problem the blocks problem the l game the end game a true life changer this book will have you thinking in ways that you never thought were possible

in practical thinking de bono's theme is everyday thinking how the mind actually works not how philosophers think it should based on the results of his famous black cylinder experiment a critical thinking task that asks participants why they think a black cylinder falls over de bono explores the four practical ways of being right from there he picks out and names the five levels of understanding and the five major mistakes in thinking from memes and instagram to twitter and bestselling books like mistakes i made at work mistakes and what we can learn from them are a hot topic with edward you'll learn exactly why we all make them

the last 1 000 years have not been a great success we have he says been far too wrapped up in thinking what is instead of what can be

i am right you are wrong is the classic work about choice in business and in life from world renowned writer and philosopher edward de bono most of our everyday decision making tends to be confrontational whether in large meetings one to one or even in our own heads opposite view points are pitted against each other

ultimately there must be a winner and a loser in i am right you are wrong lateral thinking guru edward de bono challenges this rock logic of rigid categories and point scoring arguments which is both destructive and exhausting instead he reveals how we can all be winners clearer perception is the key to constructive thinking and more open minded creativity in overturning conventional wisdom edward de bono will help you to become a better thinker and decision maker an inspiring man with brilliant ideas de bono never ceases to amaze with his clarity of thought sir richard branson
