so on and the degree to which these groups constitute or don't a homogenous community their history and where their future challenges lie. Stavans, one of the world's foremost authorities on global hispanic civilization, sees latino culture as undergoing dramatic changes as a result of acculturation changes that are fostering a new mestizo identity that is part hispanic and part american. However, latinos living in the united states are also impacting american culture as ilan stavans argues, no other minority group will have a more decisive impact on the future of the united states.
