the routledge introduction to italian linguistics offers a systematic and comprehensive overview of the linguistic structure of the italian language including phonetics and phonology morphology and morphosyntax syntax semantics and sociolinguistics the manual includes a historical sketch of the italian language which outlines the central phases of its emergence and process of standardization written in clear concise language and taking a descriptive theory neutral approach this is the ideal companion for advanced students of the italian language and those studying italian and romance linguistics after sketching the most important phases of the process of standardization of italian and introducing the main varieties of italian as classified from a social and geographical perspective this introductory text addresses the core topics of italian linguistics as pertaining to the sound

system and word and sentence structure the text adopts a descriptive approach and requires no previous knowledge of linguistics since technical terms are carefully explained and illustrated by numerous examples thus it can serve as a reference tool for instructors of Italian and anyone interested in advancing their knowledge of the Italian language or familiarizing themselves with Italian linguistics

Isn't translation all about saying exactly the same thing in another language aren't national images totally outdated in this era of globalization most people might agree but this book amply illustrates how persistent and multifaceted clichés on translation and nation can be time and again translating involves making transfer choices and these choices are never neutral though globalization has seemingly all but erased national ideologies and cultural borders such ideologies and borders continue to play a determining role in conflicts identity politics and cultural profiles the place where transfer choices and forms of national and cultural representation come together is also the place where translation studies and imagology meet this book offers a wealth of chapters showing how decisive selection and transfer processes can be in representing national images both self images and images of the other s it shows also how intensely the two disciplines can work together and mutually benefit from shared data and methodologies

the colour and colour naming conference held in 2015 at the university of Lisbon offered a chance to explore colour naming processes from a cross linguistic approach the conference was an initiative of the working group lexicography and lexicology from a pan European perspective itself part of the COST Action European Network of Lexicography the working group investigates the various ways by which vocabularies of European languages can be represented in dictionaries and how existing information from single language dictionaries can be displayed and interlinked to better communicate their common European heritage the proceedings gather together a selection of studies originally presented at the conference the first section of the volume outlines a pan European perspective of colour names the second section is devoted to the categorisation and lexicographic description of colour terms

the volume explores the history of language contact between Italy and Anglophone countries and illustrates the phenomenon of lexical borrowing types of English induced borrowings are presented on the basis of quantitative and qualitative information provided by Italian lexicographic sources and corpus based evidence criteria of currency and frequency are discussed with reference to a multilingual project GLAD Global Anglicism Database offering a contribution to loanword lexicography the book is addressed to scholars and non experts interested in the input of English borrowings into Italian

this book presents a systematic literary comparison of the retranslations by adopting a mixed method and bottom up inductive approach by developing an empirical corpus approach this corpus is specifically tailored to identify and study linguistic and non linguistic modernist features throughout the texts such as stream of consciousness indirect interior monologue and free indirect speech all occurrences are analysed quantitatively in the computations of inferential and comparative statistics such as tests of time trends lexical variety and lexical frequency the target texts are digitised and the resulting text files are then analysed using a bespoke novel computer program capable of the functions not provided by commercially available

software such as wordsmith tools and wmatrix this methodology enables in depth explorations of micro and macro textual features and allows a mixed method approach combining close reading qualitative analysis with systematic quantitative comparisons the empirical study of the digital corpus of eleven italian re translations of virginia woolf s to the lighthouse identifies a progressive source text orientation only in a relatively few aspects of a few target texts the translators presence affects all the examined target texts in terms of register and style under the influence of the italian translation norms usually attributed to the translation of literary classics its intended readership comprises students of the mentioned fields and the general public of readers editors and publishers
