now in its fifth edition diffusion of innovations is a classic work on the spread of new ideas in this renowned book everett m rogers professor and chair of the department of communication journalism at the university of new mexico explains how new ideas spread via communication channels over time such innovations are initially perceived as uncertain and even risky to overcome this uncertainty most people seek out others like themselves who have already adopted the new idea thus

the diffusion process consists of a few individuals who first adopt an innovation then spread the word among their circle of acquaintances a process which typically takes months or years but there are exceptions use of the internet in the 1990s for example may have spread more rapidly than any other innovation in the history of humankind furthermore the internet is changing the very nature of diffusion by decreasing the importance of physical distance between people the fifth edition addresses the spread of the internet and how it has transformed the way human beings communicate and adopt new ideas

what is the new economy what makes it new and what are the implications for antitrust regulation and macroeconomic policy providing a non technical and compelling analysis of the modern macro economy the contributors to this volume eminent scholars all provide their views on the new economy from a variety of perspectives the phrase the new economy means many things to many people it is often used to refer to the information economy the high tech economy or to the explosive growth of the world wide it has also been used to refer to the expansion and stock market boom of the last decade despite these confusions and excesses in the term s usage there is indeed something new about the new economy the initial set of three chapters explores what may be the defining feature the resurgence of productivity growth in the united states in the 1990s and its link to the it revolution macroeconomic policy challenges are also discussed the second set of papers concentrates on what is perhaps the second defining feature of the new economy the idea of network economies the contributors consider challenges for regulatory policy look at internet pricing policies and challenge some aspects of network economics the volume concludes with a discussion of how the us postal service an important exemplar of the changing world responds to competition students scholars and all those interested in gaining a better understanding of the global economy will find this volume a valuable resource

this series explores the ongoing process of identity and learning in adult development highlighting the connections between learning and identity through empirical research and narrative essays volume one focuses on higher education featuring chapters by and about post secondary educators and students

comprises all laws of a general and permanent nature under arrangement of the official code of laws of the united states with annotations from federal and state courts

grade level 1 2 3 4 5 6 7 e p i t

for undergraduate courses in innovation and creativity or for graduate students in schools of management business or engineering and technology management

programs a comprehensive collection of research illustrating advances in innovation over the past century this unique anthology equips its readers with the knowledge and tools to construct a model of innovation and effectively implement it in both business and non business settings the world continues to change at an accelerating pace the concepts developed in this vast collection of research represent a large part of the study of innovation and technological progress for the past century an excellent resource for students and practitioners it offers readers in depth insight into many of the areas that influence and are influenced by the innovation process giving them an excellent perspective for conceptualizing the innovation process
