and unemployment addresses questions raised by the recent financial crisis based exercises with answers extensive mathematical appendix for at a glance easy reference

practical macroeconomics for non economists provides the tools the theory and the empirical understanding of macroeconomics without the heavy lifting of the mathematical and econometric models this accessible book introduces the building blocks of macroeconomic thinking and challenges the reader to apply these insights to learn why economists say what they do and what guides economic policymakers linking actual data to theoretical concepts it explores competing economic theories and uncovers some of the key controversies in macroeconomic theory and how different perspectives lead to alternative and vastly different policy recommendations key features include coverage of all the key macroeconomic topics such as gdp inflation unemployment output and productivity business cycles aggregate demand supply and fiscal and monetary policy question and answer format covering the foundations of each topic in a logical progression to provide the reader with a quick reference and more focused discussion advanced questions to encourage deeper discussion start of chapter learning objectives which allow the reader to see the road ahead for each section end of chapter issues to think about boxed features which offer the reader an opportunity to apply critical thinking to the issues covered resource manual and powerpoints for instructors practical macroeconomics for non economists is the ideal textbook for anyone looking for a practical and non technical introduction to the subject

this macroeconomic book is in notes form and very suitable to quickly revise the economics concepts this book can be used by students instead on making their own notes for quickly revising the concepts before the exams

description of the product 100 updated syllabus fully solved board papers we have got you covered with the latest and 100 updated curriculum crisp revision with topic wise revision notes smart mind maps mnemonics extensive practice with 3000 questions board marking scheme answers to give you 3000 chances to become a champ concept clarity with 1000 concepts 50 concept videos for you to learn the cool way with videos and mind blowing concepts nep 2020 compliance with art integration competency based questions for you to be on the cutting edge of the coolest educational trends

it is clear even to casual observation that economies evolve from year to year and over centuries yet mainstream economic theory assumes that economies always move towards equilibrium one consequence of this is that mainstream theory is unable to deal with economic history the evolution of economies provides a clear account of how economies evolve under a process of support bargaining and money bargaining both support bargaining and money bargaining are situation related people determine their interests and actions by reference to their present circumstances this gives the bargaining system a natural evolutionary dynamic societies evolve from situation to situation historical change follows this evolutionary course a central chapter of the book applies the new theory in a re evaluation of the industrial revolution in britain showing how specialist money bargaining agencies in the form of companies evolved profitable formats and displaced landowners as the leading sources of employment and economic necessities companies took advantage of the evolution of technology to establish effective formats the book also seeks to establish how it came about that a mainstream theory was developed that is so wildly at odds with the observable features of economic history and economic exchange theory making is described as a process of intellectual support bargaining in which theory is shaped to the interests of its makers the work of major classical and neoclassical economists is contested as incompatible with the idea of an evolving money bargaining system the book reviews attempts to derive an evolutionary economic theory from darwin s theory of evolution by natural selection neoclassical economic theory has had enormous influence on the

governance of societies principally through its theoretical endorsement of the benefits of free markets an evolutionary account of economic processes should change the basis of debate the theory presented here will be of interest immediately to all economists whether evolutionary heterodox or neoclassical it will facilitate the work of economic historians who complain that current theory gives no guidance for their historical investigations beyond the confines of professional theory making many will find it a revelatory response to questions that have hitherto gone unanswered

this text conveys the principles of microeconomics in a conversational style through a series of extended examples that students should relate and respond to students are discouraged from simply memorizing facts and are engaged in active learning the book maintains a focus on presenting basic concepts in depth and developing the analysis step by step rather than covering hundreds of topics superficially

written for a one term course in principles of macroeconomics offered out of the economics or business department at both 2 and 4 year colleges and universities this text is aimed at the mid to lower end of the market

bernard maris was killed in paris on january 7 2015 during the terrorist attack against the satirical magazine charlie hebdo he remains one of the most original intellectuals of contemporary france but despite being a uniquely original heterodox thinker his international reputation has been compromised by the fact that his writings are inaccessible to non french speakers this book remedies that by providing an overview of bernard maris life and intellectual trajectory as well as an english translation of an anthology of his most relevant writings this volume provides the international audience for the first time ever the chance to know and understand the contribution of this major heterodox economist an outstanding and atypical figure in economic thought and a virulent critic of mainstream dominant economics he was also an all round actor and thinker of his time through rigorous reasoning he questioned the notion of well being which he argued is too often conflated with having more enslavement by work or the endless destructive accumulation of natural wealth is also inherent to the capitalist system probably his most original contribution is his epistemological reflection on the very nature of economics and his appraisal of this discipline as a form of rhetoric this book will be of great interest to readers in

heterodox economics economic methodology epistemology and french literature and culture more broadly

description of the product strictly as per the latest cbse syllabus dated march 31 2023 cir no acad 39 2023 acad45 2023 100 updated for 2023 24 with latest rationalized ncert textbooks concept clarity with concept wise revision notes mind maps mnemonics 100 exam readiness with previous year s questions board marking scheme answers valuable exam insights with 3000 ncert exemplar questions extensive practice with unit wise self assessment questions practice papers nep compliance with competency based questions
