michael barr explores the complex and covert networks of power at work in one of the world's most prosperous countries the city state of singapore he argues that the contemporary

networks of power are a deliberate project initiated and managed by Lee Kuan Yew, former prime minister and Singapore's founding father. Designed to empower himself and his family, Barr identifies the crucial institutions of power, including the country's sovereign wealth funds and the government-linked companies, together with five critical features that form the key to understanding the nature of the networks. He provides an assessment of possible shifts of power within the elite in the wake of Lee Kuan Yew's son, Lee Hsien Loong, assuming power and considers the possibility of a more fundamental democratic shift in Singapore's political system.

Singapore's success story has increasingly been recognised, but few have told it from the perspective of an insider. As a senior civil servant and Mandarin from 1959 to 1999, Ngiam Tong Dow served with the founding generation of political leaders and contributed to the country's economic growth. In this book, he reflects on these experiences, sharing personal anecdotes and perceptive insights of Singapore's early decades. He also boldly questions some of the policies of government and emerging trends in the country to suggest how Singapore must change to survive and thrive in the future.

History of Public Services in Singapore

This book explores to what extent China has drawn lessons from Singapore, both in terms of its ruling ideology and through the policy-specific learning process. In so doing, it provides insights into the opportunities but also the challenges of this long-term learning process, focusing attention on how non-democratic regimes deal with modernization. The stellar line-up of international contributors from China, Singapore, Europe, and the US offer a variety of perspectives on Singapore as a model of authoritarian modernism. For China, the book discusses how the small Southeast Asian city-state became a major reference point. For China, how mainland observers often misunderstood the nature of Singapore's governance and instrumentalized it to bolster the CCP's legitimacy, and why the Singapore model appears to be in decline under Xi Jinping. The chapters also analyze policy-specific learning processes, including bilateral mechanisms of policy exchange, the Chinese Mayor's class in Singapore, and joint industrial projects and lessons in social welfare provision. The book will be of interest to academics working on Chinese politics, development in China, state, society, and economy in the Asia-Pacific, international relations in the Asia-Pacific, and Southeast Asian politics.
