the temptations of a new genetically informed eugenics and of a revived faith based world wide political stance this study of the interaction of science religion politics and the culture of celebrity in twentieth century europe and america offers a fascinating and important contribution to the history of this movement the author looks at the career of french born physician and nobel prize winner alexis carrel 1873 1944 as a way of understanding the popularization of eugenics through religious faith scientific expertise cultural despair and right wing politics in the 1930s and 1940s carrel was among the most prestigious experimental surgeons of his time who also held deeply illiberal views in man the unknown 1935 he endorsed fascism and called for the elimination of the unfit the book became a huge international success largely thanks to its promotion by readers digest as well as by the author s friendship with charles lindbergh in 1941 he went into the service of the french pro german regime of vichy which appointed him to head an institution of eugenics research his influence was remarkable affecting radical islamic groups as well le pen s front national that celebrated him as the founder of ecology

reproduction of the original the antigonos publishing house specialises in the publication of reprints of historical books we make sure that these works are made available to the public in good condition in order to preserve their cultural heritage

the creators of the vichy regime did not intend merely to shield france from the worst effects of military defeat and occupation rather the leaders of vichy were inspired by a will to regenerate france to establish an authoritarian new order that would repair the degenerative effects of parliamentary democracy and liberal society their plan to effect this change took the form of a far reaching programme

they called the national revolution this is the first study of the national revolution as the expression of vichy's ideology and aims it reveals the variety and complexity of both right wing and other strands of french thought in the context of the turbulent years of the 1930s when vichy's history really begins and under the occupation when internal rivalries and divisions as well as the pressures of war doomed vichy's programme of national regeneration the book is structured around a consideration of the rhetoric of right wing ideology and such key catchwords as decadence action order realism and new man and shows how these phrases only served to mask the political and ideological incoherence of the vichy government

a startling and original view of the occupation of the french heartland based on a new investigation of everyday life under nazi rule in france the german occupation is called simply the dark years there were only the good french who resisted and the bad french who collaborated marianne in chains a broad and provocative history uncovers a rather different story one in which the truth is more complex and humane drawing on previously unseen archives firsthand interviews diaries and eyewitness accounts robert gildea reveals everyday life in the heart of occupied france he describes the pressing imperatives of work food transportation and family obligations that led to unavoidable compromise and negotiation with the army of occupation in the process he sheds light on such subjects as forced labor the role of the catholic church the horizontal collaboration between french women and german soldiers and most surprisingly the ambivalent attitude of ordinary people toward the resistance a great work of reconstruction marianne in chains provides a clear view unobscured by romance or polemics of the painful ambiguities of living under tyranny
