each time we take a turn in conversation we indicate what we know and what we think others know however knowledge is neither static nor absolute it is shaped by those we interact with and governed by social norms we monitor one another for whether we are fulfilling our rights and responsibilities with respect to knowledge and for who has relatively more rights to assert knowledge over some state of affairs this book brings together an international team of leading linguists sociologists and anthropologists working across a range of european and asian languages to document some of the ways in which speakers manage the moral domain of knowledge in conversation the volume demonstrates that if we are to understand how speakers manage issues of agreement affiliation and alignment something clearly at the heart of human sociality we must understand the social norms surrounding epistemic access primacy and responsibilities

it is well known that children's activities are full of pretending and imagination but it is less appreciated that animals can also show similar activities originally published in 2002 this book focuses on comparing and contrasting children's and animals pretenses and imaginative activities in the text overviews of research present conflicting interpretations of children's understanding of the psychology of pretense and describe sociocultural factors which influence children's pretenses studies of nonhuman primates provide examples of their pretenses and other simulative activities explore their representational and imaginative capacities and compare their skills with children although the psychological requirements for pretending are controversial evidence presented in this volume suggests that great apes and even monkeys may share capacities for imagination with children and that children's early pretenses may be less psychological than they appear

this volume explores the key developmental transitions that take place as 1 to 3 year olds leave infancy behind and begin to develop the social and emotional knowledge skills and regulatory abilities of early childhood leading investigators examine the multiple interacting factors that lead to socioemotional

competence in this pivotal period covering both typical and atypical development presented is innovative research that has yielded compelling insights into toddlers relationships emotions play communication prosocial behavior self control autonomy and attempts to understand themselves and others the final chapter presents a systematic framework for socioemotional assessment

karniol engagingly presents social development in children through the language of preference management conversational excerpts garnered from around the world trace how parents talk about preferences how infants and children s emergent language conveys their preferences how children themselves are impacted by others preferences and how they in turn influence the preferences of adults and peers the language of preferences is used to crack into altruism aggression and morality which are ways of coming to terms with other people s preferences behind the scenes is a cognitive engine that uses transformational thought conducting temporal imaginal and mental transformations to figure out other people s preferences and to find more sophisticated means of outmanoeuvring others by persuading them and playing with one s own mind and other people s minds when preferences are blocked this book is a unique and sometimes amusing must read for anyone interested in child development language acquisition socialisation and communication
