in volume i tomasito reveals the time tested conga method which he himself studied with changuito and other master congueros at the ena conservatory in havana volume i starts at the absolute beginning and is designed for the person who has never touched the congas but is also of great value to the advanced player who wishes to understand the foundation and rudiments of the approach that has allowed the ena and the other havana conservatories to consistently turn out so many world class congueros each year volume i begins with simple exercises to develop technique and systematically works its way through rudiments and recursos for use in solos and fills and basic rhythm patterns such as salsa cha cha and bolero these are presented using the unique step by step online video method which enables the student to learn the patterns by watching the video and imitating tomasito as he builds the patterns stroke by stroke this combined with a special type of notation designed to be simple for those who don't read music results in a conga course that really works rather than just another reference book to add to the bookshelf

volume ii is aimed at two distinct categories of readers 1 intermediate players who are ready for a wider range of rhythms to study and use in live playing situations and 2 experienced congueros who have digested volume i and now seek to understand the roots of the modern cuban conga style having assimilated the material in volume i the student should be able to play basic son montuno salsa chachacha and bolero volume ii moves on to guaguanco iyesa 6 8 changui afro mozambique pilon songo merengue bomba cumbia and other rhythms that a professional conguero will be expected to know each rhythm is accompanied by an article reflecting on its history and role in the big picture of latin music and offering listening recommendations like volume i it uses the step by step online video method a special 8 page appendix explains the often infuriatingly complex subject of clave with an unprecedented level of clarity and insight includes access to online video

volume iii is the first educational product to tackle the complex subject of timba the new musical genre which has been played in cuba since 1989 timba represents a quantum leap for all the instruments of the rhythm section and especially the congas the recordings of tomas cruz are considered the most advanced examples of timba conga playing and so fascinated the three coauthors that they sought out tomas cruz and spent a year and a half studying his style and meticulously documenting it before even considering the idea of publishing it after many hundreds of hours of passionate research this labor of love eventually reached fruition as volume iii volumes ii i were then written to trace the roots of the style and to understand the path tomas took to arrive at his phenomenal level of technical mastery and rhythmic creativity much more than a collection of patterns or exercises volume iii analyzes timba

arrangements from beginning to end explaining the role of the congas in each section the relationship to the clave and tomasito s creative process including an exercise which teaches the reader to invent his own timba conga parts it was the intricacies of the material of volume iii which inspired the creation of the step by step online video method which enables the reader to learn these exciting new rhythms in a fraction of the time it would take working with only written music and audio recordings

los sistemas pedagógicos continúan en crisis una crisis humana que amenaza con nunca acabar en esta obra se argumenta que una de las razones principales de las crisis educativas se debe a que los procesos pedagógicos han centrado la atención en el desarrollo cognoscitivo principalmente y han dejado de lado al cuerpo y sus emociones la pedagogía de lo corporal propuesta por el dr sergio lópez ramos muestra un camino esperanzador y encausa a la educación al aprendizaje por medio del cuerpo concibiéndolo como un espacio en donde el individuo tiene posibilidades de construir nuevas formas de vivir en armonía consigo mismo y con los otros para que el ser humano alcance una mejor calidad de vida en esta época global y postmoderna la autora incursiona en la pedagogía de lo corporal del dr lópez ramos con la metodología de historia de las ideas y logra exponer la propuesta de abrigar una nueva epistemología del cuerpo y las emociones en los procesos educativos
