Branded: A Cultural Chernobyl and the Tragic Kingdom. The Euro Disney resort has been on its

own thrill ride since opening in 1992 the much publicized version of the magic kingdom gave europeans alcohol free mocktails surly employees even colors too muted for the disney image facing financial disaster was it any wonder that disney execs found themselves wishing upon a star for answers after so many knee jerk criticisms of euro disney this book combines firsthand experience and research to shed new light on claims that the park is nothing more than a form of american cultural imperialism andrew lainsbury a former euro disney employee who knows what the park meant to its visitors goes beyond media bites and academic scorn to examine europe's love hate relationship with euro disneyland and some of the undiscussed issues surrounding it once upon an american dream is a story of global capitalism on a grand scale lainsbury has plumbed company archives and interviewed key players to give readers the real view from le chateau de la belle au bois dormant sleeping beauty's castle he cracks open the euro disney controversy to reveal the park not as a tragic experiment in exporting american culture but the result of european efforts to import a popular form of american entertainment lainsbury tells how the walt disney company came to build a european park and locate it in france how political negotiations affected its design and development how it was promoted to continental audiences and what caused its widely publicized financial woes before being rescued by a real prince from saudi arabia he reveals what it took to win back the hearts of skeptical europeans such as serving wine selling flashy merchandise and placating disgruntled workers finally he looks into the magic mirror to speculate on the role of euro disney and the walt disney company in the twenty first century ultimately lainsbury shows that cultural imperialism is not an exclusively american phenomenon but a global corporate strategy and that global corporatism by needing to be responsive to consumers is so complex that it may not be as monolithic as feared once upon an american dream is a fairy tale for our times reminding us that for all the critical huffing and puffing the creation and marketing of pleasure is what euro disneyland is all about

manson's study is devoted to retrieving kardiner from the limbo into which he lapsed some 30 years ago the author offers a historical reconstruction of the classic psychocultural seminars and reassesses the theoretical and methodological innovations that emerged from them as a historian manson displays an impressive command of his materials he does an admirable job of summarizing the ethnographic data on which kardiner based his psychodynamic formulations and interpretations he even manages to evoke something of the emotional flavor of the seminar sessions and the very different personalities involved this is a consequence of his judicious use of rich primary sources the exhaustive unpublished reminiscences of kardiner himself the private papers of margaret mead and the recollections and or seminar notes of aberle barnouw du bois and others a most worthwhile volume one that should be read by specialists in culture and personality american anthropologist while a number of anthropologists in the 1930s and 1940s incorporated isolated elements of freudian theory into their studies of the interplay of culture and personality the psychoanalyst abram kardiner transcended disciplinary boundaries to forge a genuine psychocultural synthesis although the importance of kardiner's pathbreaking the individual and his society is sometimes acknowledged william manson argues that kardiner's work has often been overlooked or misinterpreted by social scientists and psychiatrists in this first comprehensive study of kardiner's theoretical contributions manson traces the development of kardiner's psychodynamic formulations and evaluates the impact of his model on neo freudian culture

and personality research and psychological anthropology in general the author discusses kardiner s extended collaboration with leading anthropologists which resulted in the creation of a psychocultural model for personality formation in different societies he examines kardiner s theory of culturally conditioned basic personality and the psychocultural technique for studying the interrelationships of specific cultural practices personality adaptation and supernatural belief systems manson s analysis places kardiner s theories in the wider context of concurrent neo freudian approaches in anthropology and parallel developments in culturalist psychoanalysis and interdisciplinary social science a balanced and lucid assessment of a major figure in psychological anthropology this work will be of interest for psychoanalytic studies cultural and psychological anthropology psychodynamics cross cultural psychology and the history of the social behavioral sciences
