comprehensive and authoritative this forward thinking book reviews the breadth of current knowledge about early education and identifies important priorities for practice and policy robert c pianta and his associates bring together foremost experts to examine what works in promoting all children s school readiness and social emotional development in preschool and the primary grades exemplary programs instructional practices and professional development initiatives and the systems needed to put them into place are described the volume presents cutting edge findings on the family and social context of early education and explores ways to strengthen collaboration between professionals and parents

in the past several years models of multi tiered service delivery have emerged as a framework for supporting the needs of school aged children in schools across the country and have received much attention in scholarly publications of education and related fields despite the needs of young children and the promise of early intervention however models of multi tiered service delivery are only in the beginning stages of development in early childhood education settings such as preschools this text provides early childhood professionals with an introduction to tiered service delivery and practical considerations in the implementation of a multi tier system of supports with particular emphasis on early childhood law and ethics assessment and intervention developmental disabilities and family engagement

handbook of field experiments volume two explains how to conduct experimental research presents a catalog of research to date and describes which areas remain to be explored the new volume includes sections on field experiments in education in developing countries how to design social protection programs a section on how to combat poverty and updates on data relating to the impact and determinants

of health levels in low income countries separating itself from circumscribed debates of specialists this volume surpasses the many journal articles and narrowly defined books written by practitioners this ongoing series will be of particular interest to scholars working with experimental methods users will find results from politics education and more balances methodological insights with analyses of principal findings and suggestions for further research appeals broadly to social scientists seeking to develop an expertise in field experiments written in a language that is accessible to graduate students and non specialist economists

early childhood education spans the human life from birth to age 8 infants and toddlers experience life more holistically than any other age group social emotional cognitive language and physical lessons are not learned separately by very young children adults who are most helpful to young children interact in ways that understand that the child is learning from the whole experience not just that part of the experience to which the adult gives attention although early childhood education does not have to occur in the absence of the parent or primary caregiver this term is sometimes used to denote education by someone other than these the parent or primary caregiver both research in the field and early childhood educators view the parents as an integral part of the early childhood education process early childhood education takes many forms depending on the theoretical and educational beliefs of the educator or parent other terms those are often used interchangeably with early childhood education are early childhood learning early care and early education much of the first two years of life are spent in the creation of a child s first sense of self or the building of a first identity because this is a crucial part of children s makeup how they first see themselves how they think they should function how they expect others to function in relation to them early care must ensure that in addition to carefully selected and trained caregivers links with family home culture and home language are a central part of program policy if care becomes a substitute for rather than a support of family children may develop a less than positive sense of who they are and where they come from because of their child care experience this book presents the latest research in this vital field

leading scholars synthesize knowledge on how gains from early childhood programs and practices are initiated increased and sustained
