this work is essentially a bibliography consisting of a representative sampling of 58 nonfiction books published in the year 2004 about african americans and about the issues that impacted and impact us viewed in the context of the canon of 664 selected from those published in the last two decades of the twentieth century the offerings of the mainstream press in the period 1939 1964 are cited as a backdrop ninety one titles published over the years 2001 to 2003 constitute the sampling for that period the surge in the publication of books in the canon at the end of the 20th century is analyzed

what is the future of languages in an increasingly globalized world are we moving toward the use of a single language for global communication or are there ways of managing language diversity at the international level can we or should we maintain a balance between the global need to communicate and the maintenance of local and regional identities and cultures what is the role of education of language rights of language equality in this volatile global linguistic mix a group of leading scholars in sociolinguistics and language policy examines trends in language use across the world to find answers to these questions and to make predictions about likely outcomes highlighted in the discussion are among other issues the rapidly changing role of english the equally rapid decline and death of small languages the future of the major european

languages the international use of constructed languages like esperanto and not least the question of what role applied scholarship can and should play in mapping and influencing the future

bilateral investment treaties bits signed prior to the 21st century are problematic some countries with bits signed during this period have since reviewed those bits and taken action to address the disadvantages the bits held for the host nation or have either resorted to eradicating some of their bits in particular developing countries that signed bits with developed nations seem to be disproportionately disadvantaged in these agreements this research highlights kenya s current bit situation and compares it in light of another developing country south africa with regards to its bit experience given that south africa has undergone an extensive bit review process and moves to change some of these bits this study compares and contrasts the kenyan and south african experience the study highlights the possible lessons that could be learnt from the south african bit review experience and provides recommendations for the kenyan government regarding its outdated bits the lessons and recommendations benefit not only kenya but also other countries that are still to review their bits as it adds to the literature on why it is important for countries with such bits to revisit them and how they can go about the review mechanism best in addition the study is also significant as far as it raises awareness of the use and effects of bits thereby enabling countries that enter into such agreements to make informed decisions

a learner centred curriculum provides space for the learner to be actively involved in knowledge production and learning such can only happen if the learner s confidence is boosted by a feeling of control and ability to manage his or her progress towards acquiring a qualification the twenty first century teacher must create an environment that not only supports the four pillars of learning but also leads to learners being allowed a voice to ask pertinent questions the teacher should be able to guide the student to full physical and mental maturity and should help to develop critical thinking and

the students should be encouraged to practice the truth and have self respect and respect for other people this can happen if the learner is afforded the opportunity to self accept if the learners fail to do so they are likely to have lack of confidence which will lead to lack of independence

one of the predominantly orthodox countries that has never experienced communism is greece a country uniquely situated to offer insights about contemporary trends and developments in orthodox christianity this volume offers a comprehensive treatment of the role orthodox christianity plays at the dawn of the twenty first century greece from social scientific and cultural historical perspectives this book breaks new ground by examining in depth the multifaceted changes that took place in the relationship between orthodox christianity and politics ethnicity gender and popular culture its intention is two fold on the one hand it aims at revisiting some earlier stereotypes widespread both in academic and others circles about the greek orthodox church its cultural specificity and its social presence such as its alleged intrinsic non pluralistic attitude toward non orthodox others on the other hand it attempts to show how this fairly traditional religious system underwent significant changes in recent years affecting its public role and image particularly as it became more and more exposed to the challenges of globalization and multiculturalism

james martin one of the world s most widely respected authorities on the impact of technology on society argues that we are living at a turning point in human history we are travelling at breakneck speed into an era of extremes extremes of wealth and poverty extremes in technology extremes in globalization if we are to survive we must learn how to manage them all although we face huge challenges and conflicts martin argues that it is in the scientific breakthroughs of the new century that we will find new hope in a clear penetrating and insightful style he addresses the key questions of our age and proposes an interconnected set of solutions to its problems
