the intention of the book is grounded on the unbroken enthusiasm for airlines and the entire travel and transportation industry as well as our interest in writing a compact handbook with basic knowledge about airlines from the perspective of two consultants especially at the beginning of our career in the consulting industry we realized that this basic knowledge about airlines is hidden in countless textbooks websites and experiences of experts and that a compact handbook would certainly be beneficial from this thought the idea

was born to provide graduates people interested in airlines airline newcomers and airline experts a book which makes the entry into the airline industry more enjoyable and easier we hope that our book will give you interesting insights into this exciting industry and that it will inspire and stimulate you especially with the organizational and theoretical models which undoubtedly originate from our core competence as consultants we hope you enjoy reading this book and wish you many valuable findings your robin andrae and arne semken

focusing on new reference sources published since 2008 and reference titles that have retained their relevance this new edition brings o gorman s complete and authoritative guide to the best reference sources for small and medium sized academic and public libraries fully up to date about 40 percent of the content is new to this edition containing sources selected and annotated by a team of public and academic librarians the works included have been chosen for value and expertise in specific subject areas equally useful for both library patrons and staff this resource covers more than a dozen key subject areas including general reference philosophy religion and ethics psychology and psychiatry social sciences and sociology business and careers political science and law education words and languages science and technology history and performing arts encompasses database products cd roms websites and other electronic resources in addition to print materials includes thorough annotations for each source with information on author editor publisher cost format dewey and lc classification numbers and more library patrons will find this an invaluable resource for current everyday topics librarians will appreciate it as both a reference and collection development tool knowing it s backed by ala s long tradition of excellence in reference selection

includes part 1 number 2 books and pamphlets including serials and contributions to periodicals july december

from the author of the highly praised the pencil and the evolution of useful things comes another captivating history of the seemingly

mundane the book and its storage most of us take for granted that our books are vertical on our shelves with the spines facing out but henry petroski inveterately curious engineer didn t as a result readers are guided along the astonishing evolution from papyrus scrolls boxed at alexandria to upright books shelved at the library of congress unimpeachably researched envably written and charmed with anecdotes from seneca to samuel pepys to a nineteenth century bibliophile who had to climb over his books to get into bed the book on the bookshelf is indispensable for anyone who loves books
