et âgé recueille un petit garçon trouvé sous la terre cette action bienveillante est le
prélude à une série de prodiges

what if animals and humans could speak to one another tom mustill the nature
documentarian who went viral when a thirty ton humpback whale breached onto his kayak
asks this question in his thrilling investigation into whale science and animal
communication a new yorker best book of 2022 when a whale is in the water it is like an
iceberg you only see a fraction of it and have no conception of its size on september 12
2015 tom mustill was paddling in a two person kayak with a friend just off the coast of
california it was cold but idyllic until a humpback whale breached landing on top of them
releasing the energy equivalent of forty hand grenades he was certain he was about to die
but they both survived miraculously unscathed in the interviews that followed the incident
mustill was left with one question what could this astonishing encounter teach us drawing
from his experience as a naturalist and wildlife filmmaker mustill started investigating
human whale interactions around the world when he met two tech entrepreneurs who
wanted to use artificial intelligence ai originally designed to translate human languages to
discover patterns in the conversations of animals and decode them as he embarked on a
journey into animal eavesdropping technologies where big data meets big beasts mustill
discovered that there is a revolution taking place in biology as the technologies developed
to explore our own languages are turned to nature from seventeenth century dutch
inventors to the whaling industry of the nineteenth century to the cutting edge of silicon
valley how to speak whale examines how scientists and start ups around the world are
decoding animal communications whales with their giant mammalian brains virtuoso
voices and long highly social lives offer one of the most realistic opportunities for this to
happen but what would the consequences of such human animal interaction be we re
about to find out

leslie day s life changed forever when in 1975 she moved to a tiny houseboat on the
hudson river at the 79th street boat basin a new home umbilically tied to manhattan s
upper west side in her heartfelt memoir river day reveals how she fell in love with and
married her neighbor a biology professor at brooklyn college became a naturalist educator
and author and raised her son on the boat as day invites readers into the intimate and
connective stories of the singular floating community on the river the histories and the
people of the hudson flow along with the tides and currents of day s life there are stories
of those who polluted the river and of those who fought for it to be clean and safe stories
of how day became a student and teacher of the river and of the plants and animals she
grew to know and love challenges and celebrations have their own place too storms

sinkings fires and ice fields as well as weddings birthdays holidays and found families a unique look at life on and of the hudson river is a love letter to new york city its famous waterway and the environment around us and the people who shape it
