a survey of greek sculpture from the earliest mention to graeco roman times

this book is the first of its kind to focus on issues concerning sculpture and reproduction and to explore the theoretical and practical consequences

excerpt from painters sculptors architects engravers and their works a handbook for the convenience of my readers it seems best to explain more fully than has been done the plan of this book in writing it i had two objects constantly in mind namely that it must be kept within a portable size and a moderate cost in order to do this all living artists were excluded and those not living spoken of with as much conciseness as possible while few were mentioned whose works do not come in the way of most travellers this last rule when applied to the artists of antiquity takes in a very small number of antique paintings we have almost nothing remaining and of antique sculptures but a small number of well attested originals and some copies my limits have been exceeded in this respect by adding a few artists of antiquity of whom much is written and said but whose works are not extant it is a pleasure to elaborate to dwell with minuteness upon every known circumstance in the lives of those who have left us works of art and this has often been done about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
