excerpt from the spirit of modern philosophy an essay in the form of lectures the friend to whom i have dedicated this book asked me a little more than two years ago for some account of the more significant spiritual possessions of a few prominent modern thinkers i was to

tell what i could about these possessions in comparatively brief and untechnical fashion with some misgivings as to my right and many misgivings as to my power to set forth any portion of the content of modern philosophy in the compass of a few short lectures i still undertook the task and soon found it unexpectedly absorbing the company of friends for whom i was to prepare my lectures proved to be more numerous than i had foreseen the undertaking became more elaborate and thorough going than i had any way intended and the exceeding kindliness and earnestness of my hearers called erelong for a response that taxed all my poor wit to the utmost my lectures once finished in their first form under the general title representative modern thinkers and problems i was asked to read them yet again before another equally cordial and stimulating company in another city the re reading suggested of course much revision about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

roger scruton is one of the most widely respected philosophers of our time whose often provocative views never fail to simulate debate in modern philosophy he turns his attention to the whole of the field from the philosophy of logic to aesthetics and in so doing provides us with an essential and comprehensive guide to modern thinking

the field of professional academic and vocational qualifications is ever changing the new edition of this highly successful and practical guide provides thorough information on all developments fully indexed it includes details on all university awards and over 200 career fields their professional and accrediting bodies levels of membership and qualifications it acts as an one stop guide for careers advisors students and parents and will also enable human resource managers to verify the qualifications of potential employees

through vivid and witty prose richard francks presents the ideas that have informed the development of philosophy as we know it our current approaches to central philosophical problems the existence of god the mind body problem the idea of the self and the existence of the world originated in the texts of these six thinkers as did broader questions about political and social philosophy this book is ideal for anyone encountering the ideas of these thinkers for the first time

modern philosophy an anthology features a broad range of selections from important but seldom anthologized works in the philosophy of psychology natural science morality politics and religion features a broad range of selections from works in the philosophy of psychology natural science morality politics and religion places the modern thinkers in conversation with each other including leibniz on descartes and spinoza reid on locke and hume and kant on hobbes offers important but seldom anthologized primary works

history of modern philosophy from nicolas of cusa to the present time the predominantly practical aim of this history it is intended to serve as an aid in introductory work in reviewing and as a substitute for dictations in academical lectures as well as to be a guide for the wider circle of cultivated readers has enjoined self restraint in the development of personal views and the limitation of critical reflections in favor of objective presentation it is only now and then that critical hints have been given in the discussion of phenomena of minor importance it has been impossible to avoid the oratio obliqua of exposition but wherever practicable we have let the philosophers themselves develop their doctrines and reasons not so much by literal quotations from their works as by free condensed reproductions of their leading ideas if the principiant view of the forces which control the history of philosophy and of the progress of modern philosophy expressed in the introduction and in the retrospect at the end of the book have not been everywhere verified in detail from the historical facts this is due in part to the limits in part to the pedagogical aim of the work

includes college directory giving the name locality course of study faculty and number of students of 175 or more of the principal collegiate institutions of the united states boston robert brooks 1872 74

part of the blackwell readings in the history of philosophy series this survey of late modern philosophy focuses on the key texts and philosophers of the period whose beliefs changed the course of western thought gathers together the key texts from the most significant and influential philosophers of the late modern era to provide a thorough introduction to the period features the writings of locke berkeley hume leibniz kant rousseau bentham and other leading thinkers examines such topics as empiricism rationalism and the existence of god readings are accompanied by expert commentary from the editors who are leading scholars in the field

this book offers a comprehensive treatment of the philosophical system of the seventeenth century philosopher pierre gassendi gassendi's importance is widely recognized and is essential for understanding early modern philosophers and scientists such as locke leibniz and

newton offering a systematic overview of his contributions lolordo situates gassendi s views within the context of sixteenth and early seventeenth century natural philosophy as represented by a variety of intellectual traditions including scholastic aristotelianism renaissance neo platonism and the emerging mechanical philosophy lolordo s work will be essential reading for historians of early modern philosophy and science
