this is the first work in english to devote itself entirely to the poetry of jules laforgue 1860 1887 based on a detailed study of manuscripts as well as printed texts it analyses the evolution of laforgue s poetic ideas as he understood it himself anne holmes presents a detailed investigation of laforgue s changing poetic techniques in order to illuminate both his extraordinary poetic versatility and the significance of his adoption of free verse arguing that laforgue is the great innovator in the use of free verse in french poetry holmes sheds light on his method of composition by means of close analysis of variants and explores the precise nature of his experiment with interior monologue she sets laforgue firmly in the context of contemporary french poetry and highlights the influence on him of walt whitman and impressionist painting comparison is also made with the work of t s eliot for whom laforgue was a major influence laforgue emerges from this study as a far more important figure in the evolution of french verse than has previously been thought

he stands as a great and self consciously modern writer close in spirit to his twentieth century successors

deeply nihilistic yet full of yearning tender yet savagely self mocking laforgue has a unique voice and vision that nonetheless mark him out as one of the founding fathers of modernism like charles baudelaire before him he was determined to face up to the ugly and decadent as well as the conventionally poetic aspects of himself and the world about him in a career that rivals arthur rimbaud s for its tragically brief accelerated development he pioneered the use of coarse colloquialism startling rhymes and astonishing invented words his greatest achievement the posthumous *derniers vers* 1890 was the first complete french volume of free verse partly influenced by his translation of walt whitman the first in the french language *derniers vers* is brilliantly effective in capturing the truth of fleeting impressions and inner sensations it is also writes graham dunstan martin one of the musical masterpieces of literature this bilingual edition features a generous selection of poems in the original french from laforgue s *le sanglot de la terre les complaintes l imitation de notre dame la lune des fleurs de bonne volonte* and *derniers vers* with running prose translations at the bottom of each page
