explains why the department of education was formed what the main duties of the secretary and the department are and the key achievements of the office

originally published in 1979 the primary aim of the department of education and science was to provide a contemporary account of the department at work to explain what it tries to do and how it takes place in the machinery of government central and local and to say something about the people who work in it there is necessarily some history of the department which had undergone much change since the end of the second world war rather than try to bring it completely up to date the chapters concentrate on developments in the department s work over the three decades following the enactment of the education act 1944 during which it acquired its present shape and range of functions today it can be read in its historical context

special edition of the federal register containing a codification of documents of general applicability and future effect with ancillaries

briefly surveys more than two centures of american political history to describe how the country has been broken spiritually politically and financially and advocates a return to core values to restore america s economic and spiritual health

the impact of globalization is being felt in numerous spheres of educational policy and practice in rapid growth of information and communication technologies in economic transformation and international market competition all of which conspire to create new demands and place new pressures on school leadership drawing on examples from 12 countries in different parts of the world the editors have brought

together 28 renowned scholars in europe australia north america and asia pacific countries to contribute to this book the first six chapters address key themes and provide the framework for the 12 country reports which follow with the aim of increasing international understanding and teasing out issues of transfer and application across cultural and linguistic boundaries we have chosen national reports which cover a range of countries representing a diversity of culture and contextual backgrounds we believe these chapters and the book as a whole can provide important theoretical policy and practical implications that will inform the debate about the future of education and of schooling while each of these country narratives underscore the importance of context at the same time there are insights and values held in common
