the issue of cohesion and the policies associated with it are concerns not only for supranational entities such as the eu but also for nation states and regions alike traditional instruments for promoting cohesion include symbolic economic and social policies however given the contemporary tensions at both the international

and domestic levels attempts to create or maintain cohesion are so important that innovative approaches must be pursued this book asks to what extent spatial and urban planning in their claim to be more than just sectoral policies have contributed to the cohesion of societies over the last 30 years at european intergovernmental national and regional levels in times of challenging transformations on all spatial levels the book is therefore divided into three parts which examine the achievements and shortcomings of cohesion policies in their theoretical assumptions at national and regional level and in intergovernmental cooperation the various contributions show that spatial cohesion policies are significant factors for the cohesion of societies even beyond their borders but that these have too often not received the recognition they deserve

this issue deals with currency board arrangements in candidate countries showing the willingness to tackle difficult subjects pertinent to accession it presents the papers and conclusions together with a summary of the seminar that took place in brussels on 25 november 1999 the seminar looked at countries' recent experiences with currency boards and identified conditions producing success it helped to clarify the commission services' position with regard to currency board arrangements in candidate countries in the context of their future accession to economic and monetary union and adoption of the euro

the future of european monetary union emu stands as one of the most important economic issues of the era the author argues that in the event of macroeconomic shocks rather than acting as a cohesive force emu could give rise to disunity as emu is not an optimal currency area asymmetric shocks affecting each country differently could be critical to its future the success of emu depends upon the ability of institutions in the eu to satisfy the monetary and fiscal policy demands of sufficient numbers of national constituents interest groups and multinational corporations this book employs principles from public choice to analyze the eu institutions that participate in the monetary policy making process of emu and assesses whether they have the mechanisms to cope with asymmetric macroeconomic shocks in particular it examines the european council council of ministers european commission european parliament and the european central bank this book provides an invaluable critique of the emu plan and will be of interest to scholars of european economics macroeconomics and public choice

in the european union economics policies and history 2nd edition the author builds on the success and popularity of the first edition by using a combination of economics politics and history to give the reader a strong grounding in european integration and why and how policies are put in place the book is designed to

appeal to a broad range of people studying the european union susan senior nellos clear non technical explanations and use of appendices for more detailed discussion of theory ensures the book will appeal to students from a range of disciplines

this journal attempts to fill a gap between the general interest press and other academic economics journals its articles relate to active lines of economics research economic analysis of public policy issues state of the art economic thinking and directions for future research it also aims to provide material for classroom use and to address issues relating to the economics profession

includes sections rassegna delle pubblicazioni economiche and rassegna della stampa economica periodica
