the political economy of investment arbitration asks how political institutions and actors in the host state of an investment contribute to the emergence of investor state disputes combining insights from international relations and political economy it considers two opposing explanations for investor state disputes shifting state preferences toward fdi or the lack of state capacity to maintain an investment

friendly environment this book's overarching conclusion is that democratic institutions in host states contribute to the emergence of investor state disputes. Phillips Williams argues that at the heart of many investor state disputes are highly politicized distributional conflicts involving a range of domestic interest groups. Indeed, it is often pressure from these groups whether through voting protests or lobbying which motivates states to take the policy decisions that are subsequently subject to investors' legal challenges. Thus, this monograph demonstrates that in the face of the potentially high costs posed by investment arbitration, governments continue to take measures which may harm investors in order to pursue specific policy goals. More importantly, these disputes are not only the result of corruption or weak rule of law but of measures which are taken at the behest of broader interest groups and relate to clear public policy concerns. This has important implications for our normative assessment of the regime and is highly relevant to current debates in both international law and international political economy about the relationship between investment treaties and domestic politics.

This is the first book to focus on international efforts to address Syrian chemical weapons issues in an international law context. It provides an overview of the process of control over Syrian compliance, non-compliance with international obligations, including the keys to success in eliminating Syria's stockpiles and reasons for difficulties in handling multiple uses of toxic chemicals as weapons in domestic armed conflicts. It also addresses collective and unilateral sanctions against Syria outside of international institutional frameworks and their implications for subsequent cases supported by extensive analyses of developments within the OPCW Executive Council and the UN Security Council. This book is recommended for readers seeking insight about chemical weapons issues and dynamism of international law.

Trinity College opened in 1872 as the first student residence associated with the University of Melbourne. Established by the Anglican Church, it provided supervised accommodation and academic support for undergraduate students. Over the years, this was expanded to include a theological school (1877), a women's hostel (1886, later called Janet Clarke Hall) and a foundation studies program (1990) for overseas students wishing to qualify for entry to Australian universities. *Triumphs of Our Fleur de Lys* provides a detailed historical account of the college's development and public contribution set alongside the social, political and education changes in Australia over the past 150 years. It examines the contributions of numerous people to the college's progress and covers the role of tertiary education institutions, the admission of women to universities, student social and sporting life, including music, drama and religion, developments in theological education, the provision of scholarships and pastoral care, standards of accommodation, food and discipline, and the fundraising undertaken in order to provide the transformative experiences envisioned by the college's founders and still found in its current mission. This history is published in commemoration of Trinity College's 150th anniversary, celebrated in 2022.

This volume explores the issues of taking, using and being hostages in the Middle Ages. It brings together recent research in the areas of hostages and hostagings, looking at the act of hostage taking and the hostages themselves through the lenses of political and social history. Building upon previous work, this volume in particular critically examines not only the situations of hostages and hostagings but also the broader social and political context of each situation, developing a more complete picture of the phenomenon.

including grain wool hay and produce markets prices and crop reports
