the author of the god delusion addresses key scientific questions previously explained by rich mythologies from the evolution of the first humans and the life cycle of stars to the principles of a rainbow and the origins of the universe

magic takes many forms supernatural magic is what our ancestors invoked in order to explain the world before they developed the scientific method the ancient egyptians explained the night by suggesting that a goddess swallowed the sun the vikings believed a rainbow was the gods bridge to earth aside from these extraordinary tales there is another kind of magic that lies in the exhilaration of discovering the real answers to these questions it is the magic of reality science packed with dazzling illustrations and jaw dropping facts the magic of reality explains a wide range of natural phenomena

this publication is a summary this publication is not the complete book this publication is a condensed summary of the most important concepts and ideas based on the original book workbook summary the magic of reality based on the book by richard dawkins are you ready to boost your knowledge about the magic of reality do you want to quickly and concisely learn the key lessons of this book are you ready to process the information of an entire book in just one reading of approximately 30 minutes would you like to have a deeper understanding of the original book then this book is for you content exploring the nature of reality understanding human origins investigating extraterrestrial life biodiversity explained composition of matter earth's cycles explained understanding our stars science behind rainbows origins of the universe genetic connections among species causes of earthquakes understanding natural disasters

this 120 page journal features 120 1 4 inch graph paper pages 8 5 x 11 size big enough for your

writing and small enough to take with you 55 white color paper perfect for ink gel pens pencils or colored pencils a matte finish cover for an elegant professional look and feel this notebook can be used for jotting down your brilliant ideas recording your accomplishments recording your experiments or math calculations and more the simple graph pages allow you to use it however you wish science wisdom publishing offers a wide variety of notebooks paper journals never need to be charged and no batteries are required you only need your thoughts and ideas and something to write with these journals also make wonderful gifts for a teacher professor student or science graduate

new york times bestseller the legendary biologist and bestselling author mounts a timely and passionate defense of science and clear thinking with this career spanning collection of essays including twenty pieces published in the united states for the first time for decades richard dawkins has been a brilliant scientific communicator consistently illuminating the wonders of nature and attacking faulty logic science in the soul brings together forty two essays polemics and paeans all written with dawkins s characteristic erudition remorseless wit and unjaded awe of the natural world though it spans three decades this book couldn t be more timely or more urgent elected officials have opened the floodgates to prejudices that have for half a century been unacceptable or at least undercover in a passionate introduction dawkins calls on us to insist that reason take center stage and that gut feelings even when they don t represent the stirred dark waters of xenophobia misogyny or other blind prejudice should stay out of the voting booth and in the essays themselves newly annotated by the author he investigates a number of issues including the importance of empirical evidence and decries bad science religion in the schools and climate change deniers dawkins has equal ardor for the sacred truth

of nature and renders here with typical virtuosity the glories and complexities of the natural world woven into an exploration of the vastness of geological time for instance is the peculiar history of the giant tortoises and the sea turtles whose journeys between water and land tell us a deeper story about evolution at this moment when so many highly placed people still question the fact of evolution dawkins asks what darwin would make of his own legacy a mixture of exhilaration and exasperation and celebrates science as possessing many of religion's virtues explanation consolation and uplift without its detriments of superstition and prejudice in a world grown irrational and hostile to facts science in the soul is an essential collection by an indispensable author praise for science in the soul compelling rendered in gloriously spiky and opinionated prose dawkins is one of the great science popularizers of the last half century the christian science monitor dawkins is a ferocious polemicist a defender of reason and enemy of superstition john horgan scientific american

in recent decades the christian consensus that laid the foundations for the freedoms stability and prosperity enjoyed by western countries has been challenged by an increasingly militant atheistic humanism as a consequence christianity has become scorned and held up as a thing to be ridiculed the god delusion by richard dawkins represents perhaps the most brazen attack on christianity yet in it professor dawkins portrays christianity as unscientific irrational and even downright evil the god reality takes his main arguments and shows the many flaws and falsehoods they contain it aims to embolden christians to stand up for their beliefs in the face of an increasingly sceptical and hostile world and to cause atheists to question whether the assumptions that underpin their faith are really as logical and as sound as they think they are

book jacket

the four million copy international bestseller the brilliantly argued and impassioned classic polemic from the world's best known atheist sensationally incisive and perennially timely this is required reading for everyone a resounding trumpet blast for truth matt ridley the god delusion deserves multiple readings not just as an important work of science but as a great work of literature steven weinberg nobel laureate times literary supplement if its merciless rationalism doesn't enrage you at some point you probably aren't alive julian barnes entertaining wildly informative splendidly written rod liddle sunday times there is not a dull page a book that makes me want to cheer its clarity intelligence and truth telling claire tomlin my favourite book of all time a heroic and life changing work derren brown spirited and exhilarating dawkins comes roaring forth in the full vigour of his powerful arguments joan bakewell guardian at last richard dawkins one of the best non fiction writers alive today has assembled his thoughts on religion into a characteristically elegant book steven pinker the world needs passionate rationalists unafraid to challenge long accepted beliefs richard dawkins so stands out through the cutting intelligence of *The God Delusion* james d watson nobel laureate and co discoverer of dna *The God Delusion* caused a sensation when it was published in 2006 within weeks it became the most hotly debated topic with dawkins himself branded as either saint or sinner for presenting his hard hitting impassioned rebuttal of religion of all types his argument could hardly be more topical while europe is becoming increasingly secularized the rise of religious fundamentalism whether in the middle east or middle america is dramatically and dangerously dividing opinion around the world in america and elsewhere a vigorous dispute between intelligent design and darwinism is seriously undermining and restricting the teaching of science in many countries religious dogma from medieval times still serves to abuse basic human rights such as women's and gay rights and all from a belief in a god whose existence lacks evidence

of any kind dawkins attacks god in all his forms he eviscerates the major arguments for religion and demonstrates the supreme improbability of a supreme being he shows how religion fuels war foments bigotry and abuses children the god delusion is a brilliantly argued fascinating polemic required reading for anyone interested in this most emotional and important subject

should we believe in god in this brisk introduction to modern atheism one of the world s greatest science writers tells us why we shouldn t richard dawkins was fifteen when he stopped believing in god deeply impressed by the beauty and complexity of living things he d felt certain they must have had a designer learning about evolution changed his mind now one of the world s best and bestselling science communicators dawkins has given readers young and old the same opportunity to rethink the big questions in twelve fiercely funny mind expanding chapters dawkins explains how the natural world arose without a designer the improbability and beauty of the bottom up programming that engineers an embryo or a flock of starlings and challenges head on some of the most basic assumptions made by the world s religions do you believe in god which one is the bible a good book is adhering to a religion necessary or even likely to make people good to one another dissecting everything from abraham s abuse of isaac to the construction of a snowflake outgrowing god is a concise provocative guide to thinking for yourself praise for outgrowing god my son came home from his first day in the sixth grade with arms outstretched plaintively demanding to know have you ever heard of jesus we burst out laughing maybe not our finest parenting moment given that he was genuinely distraught he felt that he had woken up one day to a world in which his peers were expressing beliefs he found frighteningly unreasonable he began devouring books like the god delusion books that helped him formulate his own arguments and helped him stand his ground dawkins s new book is

special in the terrain of atheists pleas for humanism and rationalism precisely since it speaks to those most vulnerable to the coercive tactics of religion as dawkins himself says in the dedication this book is for all young people when they re old enough to decide for themselves it is also i must add for their parents janna levin author of black hole blues when someone is considering atheism i tell them to read the bible first and then dawkins outgrowing god second only to the bible penn jillette author of god no

a voice for the community of lds scholars

arguing about religion is an ideal collection for students interested in contemporary philosophy of religion and related disciplines this volume brings together primary readings from over 40 of the world s leading philosophers of religion covering a broad range of issues set alongside these works of academic philosophy are excerpts from controversial popular works by daniel dennett and richard dawkins in order to introduce the philosophical issues in a way that demonstrates their relevance to everyday life and sets them in the context of contemporary cultural discourse the volume is divided into 6 parts helping the student get to grips with classic and core arguments topics covered include methodological issues in philosophy of religion god s nature and existence evil and divine hiddenness providence and interaction the afterlife religion and contemporary life featuring lucid general and section introductions and a glossary by volume editor kevin timpe arguing about religion is an ideal starting point for students coming to philosophy of religion for the first time

contemporary scholarship has given rise to several modes of understanding biophysical and human nature each entangled with related notions of science and religion envisioning nature

science and religion represents the culmination of three years of collaboration by an international group of fourteen natural scientists social scientists humanists and theologians the result is an intellectually stimulating volume that explores how the ideas of nature pertain to science and religion editor james d proctor has gathered sixteen in depth essays each examining and comparing five central metaphors or visions of biophysical and human nature these visions are evolutionary nature emergent nature malleable nature nature as sacred and nature as culture the book s diverse contributors offer a wide variety of unique perspectives on these five visions spanning the intellectual spectrum and proposing important and often startling implications for religion and science alike throughout the essays the authors do a great deal of cross referencing and engaging each other s ideas creating a cohesive dialogue on the visions of nature envisioning nature science and religion offers a blend of scholarly rigor and readable prose that will be appreciated by anyone engaged in the fields of religion philosophy and the natural sciences
