when one looks back in ancient history there are a few great magicians that stand out magicians that shook the world so intensely that their influence continues to inform not only the occult but history in general we have apollonius of tyana the great wizard and neopythagorean philosopher the famed hermes trismegistus who has influenced occultism far and wide from the old testament we have the witch of endor balaam and king solomon to name a few from the new testament we have simon magus paul and so on and so forth we can be here for days naming each and every magician and occultist who has influenced all of us whether we know they have or not one magician however stands out to most he is not considered a magician at all but a prophet of god the messiah himself jesus no matter how one views jesus there is no doubt it that his miracles as people like to call them were in fact acts of magick in this book we will be discussing jesus magick and how we can tap into his power whether you believe jesus truly existed as a flesh and blood human being or as simply an archetype

representing an idea there is no doubt that jesus changed the world with his teachings or the teachings ascribed to him in saying that i would like to point out that this book will not argue for or against the historicity of jesus that is for you the reader to decide my goal here is to provide a way to use some of the symbology of jesus to perform magick it may not be the same exact magick he himself performed as you may know from my other books i like to give some background before i go into the rituals themselves this book will follow the same pattern in fact this book will be quite heavy on history so if you want to skip right to the rituals you may if the history is not something that interests you i for one think every occultist and magician should also be an historian it helps put everything in context history of humanity is in many ways the history of magick it is very much worth learning with that in mind we will be discussing jesus and his magick in context of the new testament with some smattering of extra canonical gospels thrown in for good measure before we do that we will discuss the time in which jesus existed and the general ideas of magick preceding and during jesus time enjoy

the mystic tradition in christian times is preserved apart from all questions and traces of instituted mysteries in the literature of christian mystical theology it is a large and exceedingly scattered literature some of its most important texts are available in no modern language they stand very seriously in need of codification and if i may be so frank even of re expression but if for other reasons they are in their entirety a study which must be left to the expert there is no person now living in europe who has not close at his hands the specific simple isolated texts much too numerous to name which are sufficient to give some general idea of the scope and aims of the tradition if i were asked to define the literature shortly and comprehensively as a whole i should call it the texts of the way the truth and the life in respect of the mystic term it is not only full but exhaustive as to the way which is that of the inward world recollection meditation contemplation the renunciation of all that is lower in the quest of all that is higher but perhaps the most catholic word of all would be centralisation it is very full also on the fundamental truth out of which it arises that a way does exist and that the way is open
