this title offers an incisive look at how interpretations of the atlantic world have changed over time and from a variety of national perspectives this volume discusses key areas of the atlantic world including the british dutch french iberian and african atlantic as well as the movement of ideas peoples and goods

atlantic history is a newly and rapidly developing field of historical study bringing together elements of early modern european african and american history their common comparative and interactive aspects atlantic history embraces essentials of western civilization from the first contacts of europe with the western hemisphere to the independence movements and the globalizing industrial revolution in these probing essays bernard bailyn explores the origins of the subject its rapid development

and its impact on historical study he first considers atlantic history as a subject of historical inquiry how it evolved as a product of both the pressures of post world war ii politics and the internal forces of scholarship itself he then outlines major themes in the subject over the three centuries following the european discoveries the vast contribution of the african people to all regions of the west the westward migration of europeans pan atlantic commerce and its role in developing economies racial and ethnic relations the spread of enlightenment ideas all are atlantic phenomena in examining both the historiographical and historical dimensions of this developing subject bailyn illuminates the dynamics of history as a discipline

the first encyclopedic reference to atlantic history between the fifteenth and nineteenth centuries the connections among africa the americas and europe transformed world history through maritime exploration commercial engagements human migrations and settlements political realignments and upheavals cultural exchanges and more this book the first encyclopedic reference work on atlantic history takes an integrated multicontinental approach that emphasizes the dynamics of change and the perspectives and motivations of the peoples who made it happen the entries all specially commissioned for this volume from an international team of leading scholars synthesize the latest scholarship on central themes including economics migration politics war technologies and science the physical environment and culture part one features five major essays that trace the changes distinctive to each chronological phase of atlantic history part two includes more than 125 entries on key topics from the seemingly familiar viewed in unfamiliar and provocative ways the seven years war trading companies to less conventional subjects family networks canon law utopias this is an indispensable resource for students researchers and scholars in a range of fields from early american african latin american and european history to the histories of economics religion and science the first encyclopedic reference on atlantic history features five major essays and more than 125 alphabetical entries provides essential context on major areas of change economies for example the slave trade marine resources commodities specie trading companies populations emigrations native american removals blended communities politics and law the law of nations royal liberties paramount chiefdoms independence struggles in haiti the hispanic americas the united states and france military actions the african and napoleonic wars the seven years war wars of conquest technologies and science cartography nautical science geography healing practices the physical environment climate and weather forest resources agricultural production food and diets disease cultures and communities captivity narratives religions and religious practices includes original contributions from sven beckert holly brewer peter a coclanis seymour drescher eliga h gould david s jones wim klooster mark peterson steven pincus richard price and sophia rosenfeld and many more contains illustrations maps and bibliographies

the atlantic in world history 1490 1830 looks at the historical connections between four continents africa europe north america and south america through the lens of atlantic history it shows

how the atlantic has been more than just an ocean it has been an important site of circulation and transmission allowing exchanges and interchanges which have profoundly shaped the development of the world divided into four thematic sections trevor burnard s sweeping yet concise narrative covers the period from the voyages of columbus to the new world in the 1490s through to the end of the age of revolutions around 1830 it deals with key topics including the columbian exchange atlantic slavery and abolition war as a global phenomenon the age of revolution religious conversion nation building trade and commerce and intellectual movements such as the enlightenment rather than focusing on the rise of the west burnard stresses the interactive nature of encounters between various parts of the world setting local case studies within his broader interconnected narrative written by a leading historian of atlantic history and including further reading lists images and maps as well as a companion website featuring discussion questions timelines and primary source extracts this is an essential book for students of atlantic and world history

this ebook is a selective guide designed to help scholars and students of the ancient world find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated this ebook is just one of many articles from oxford bibliographies online atlantic history a continuously updated and growing online resource designed to provide authoritative guidance through the scholarship and other materials relevant to the study of atlantic history the study of the transnational interconnections between europe north america south america and africa particularly in the early modern and colonial period oxford bibliographies online covers most subject disciplines within the social science and humanities for more information visit oxfordbibliographies.com

this reader composed of original essays by leading authors expands the category of the atlantic chronologically spatially and methodologically it firmly places the atlantic within global history and the coverage expands into the nineteenth and twentieth centuries the essays present events that formed the nations and cultures of the atlantic region and show their global roots and how they intertwine with non atlantic communities of the world

this core textbook gathers an international team of historians to present a comprehensive account of the central themes in the histories of britain british america and the british caribbean seen in atlantic perspective this collection of individual essays provides an accessible overview of essential themes such as the state empire migration the economy religion race class gender politics and slavery this new and revised edition brings this text up to date with recent work in the field of atlantic history and extends its scope to cover themes not treated in the first edition

notably the history of science and global history placing the british atlantic world in imperial and global contexts this book offers an indispensable survey of one of the liveliest fields of current historical enquiry this text is a primary resource for both undergraduate and postgraduate students of history particularly those taking modules on early modern british history colonial american history early american history caribbean history atlantic history and world history together the essays also provide a useful starting point for researchers in british american imperial and atlantic history new to this edition updated and expanded to take account of new research two new essays treating science and the british atlantic world in global perspective timeline of british atlantic history a revised introduction and updated guides to further reading

as europeans began to move into the atlantic in the late fifteenth century first encountering islands and then two continents across the sea they initiated a process that revolutionized the lives of people everywhere american foods enriched their diets furs precious metals dyes and many other products underwrote new luxury trades and tobacco became the first consumer craze as the price plummeted with ever enlarging production much of the technology that made new initiatives such as sailing out of sight of land possibly drew on asian advances that came into europe through north africa sugar and other crops came along the same routes and europeans found american environments ideal for their cultivation leaders along the african coast controlled the developing trade with europeans and products from around the atlantic entered african life as american plantations were organized on an industrial scale they became voracious consumers of labor american indians european indentured servants and enslaved africans were all employed and over time slavery became the predominant labor system in the plantation economies american indians adopted imported technologies and goods to enhance their own lives but diseases endemic in the rest of the world to which americans had no acquired immunity led to dramatic population decline in some areas from brazil to canada indians withdrew into the interior where they formed large and powerful new confederations atlantic exchange opened new possibilities all around the ocean states that had been marginal to the main centers in the continents interiors now found themselves at the forefront of developing trades with the promise of wealth and power european women and men whose prospects were circumscribed at home saw potential in emigration economic aspirations beckoned large numbers but also in the maelstrom following the reformation others sought the chance to worship as they saw fit many saw their hopes dashed but some succeeded as they had desired ultimately as people of african and european descent came to predominate in american populations they broke political ties to europe and reshaped transatlantic relationships

as the meeting point between europe colonial america and africa the history of the atlantic world is a constantly shifting arena but one which has been a focus of huge and vibrant debate for many years in over thirty chapters all written by experts in the field the atlantic world takes up these debates and gathers together key

original scholarship to provide an authoritative survey of this increasingly popular area of world history the book takes a thematic approach to topics including exploration migration and cultural encounters in the first chapters scholars examine the interactions between groups which converged in the atlantic world such as slaves european migrants and native americans the volume then considers questions such as finance money and commerce in the atlantic world as well as warfare government and religion the collection closes with chapters examining how ideas circulated across and around the atlantic and beyond it presents the atlantic as a shared space in which commodities and ideas were exchanged and traded and examines the impact that these exchanges had on both people and places including an introductory essay from the editors which defines the field and lavishly illustrated with paintings drawings and maps this accessible volume is invaluable reading for all students and scholars of this broad sweep of world history

drawn together in a comprehensive introduction these essays include analyses of the climate and ecology underlying the slave trade pan atlantic networks of religion and commerce inter ethnic collaboration in the development of tropical medicine science as a product of imperial relations and awareness of the atlantic world in the mind of hume

a cultural history of the atlantic world 1250 1820 explores the idea that strong links exist in the histories of africa europe and north and south america john k thornton provides a comprehensive overview of the history of the atlantic basin before 1830 by describing political social and cultural interactions between the continents inhabitants he traces the backgrounds of the populations on these three continental landmasses brought into contact by european navigation thornton then examines the political and social implications of the encounters tracing the origins of a variety of atlantic societies and showing how new ways of eating drinking speaking and worshipping developed in the newly created atlantic world this book uses close readings of original sources to produce new interpretations of its subject

strives to organize knowledge of the region it contains nearly 5 300 separate articles most topics appear in english alphabetical order

designed to encourage critical thinking about history the major problems series introduces students to both primary sources and analytical essays on important topics in us history the atlantic ocean and the interactions between the continents that make up the atlantic rim north america south america africa and europe have all figured largely into the history of both the united states and the world major problems in atlantic history covers the history and evolution of this area with special attention to such topics as the origins of the atlantic world migrations throughout the atlantic world european interactions atlantic economies slavery and independence
