through the results of a developed case study of information system for low temperature geothermal energy gis to support cost effective decisions on renewable sources addresses the issue of the use of geographic information systems gis in evaluating cost effectiveness of renewable resource exploitation on a regional scale focusing on the design of a decision support system a process is presented aimed to transform geographic data into knowledge useful for analysis and decision making on the economic exploitation of geothermal energy this detailed description includes a literature review and technical issues related to data collection data mining decision analysis for the informative system developed for the case study a multi disciplinary approach to gis design is presented which is also an innovative example of fusion of georeferenced data acquired from multiple sources including remote sensing networks of sensors and socio economic censuses gis to support cost effective decisions on renewable sources is a useful practical reference for engineers managers and researchers involved in the design of gis decision support systems investment planning

strategy in renewable energy and ict innovation in this field

the mission of the international journal of educational reform ijer is to keep readers up to date with worldwide developments in education reform by providing scholarly information and practical analysis from recognized international authorities as the only peer reviewed scholarly publication that combines authors voices without regard for the political affiliations perspectives or research methodologies ijer provides readers with a balanced view of all sides of the political and educational mainstream to this end ijer includes but is not limited to inquiry based and opinion pieces on developments in such areas as policy administration curriculum instruction law and research ijer should thus be of interest to professional educators with decision making roles and policymakers at all levels turn since it provides a broad based conversation between and among policymakers practitioners and academicians about reform goals objectives and methods for success throughout the world readers can call on ijer to learn from an international group of reform implementers by discovering what they can do that has actually worked ijer can also help readers to understand the pitfalls of current reforms in order to avoid making similar mistakes finally it is the mission of ijer to help readers to learn about key issues in school reform from movers and shakers who help to study and shape the power base directing educational reform in the u s and the world

this textbook presents a clear and accessible argument for sustainable planning and development the book discusses multiple environmental issues and examines how potential solutions can and should be addressed in the context of space and place the book also offers an invaluable discussion on the need for a framework for system based thinking where various disciplines should work together to find innovative solutions students are provided with an appreciation of the need for an interdisciplinary approach to these issues combined with an underlying sense of space an appreciation of cultural diversity and differences as well as associated insights into human relationships these core attributes put space at the heart of environmental and natural resources management in terms of policy planning and on the ground initiatives this book will be an invaluable reference for advanced undergraduate graduate students and researchers working in the

field looking for an accessible overview of this interdisciplinary approach to the topic

master s thesis from the year 2005 in the subject computer science commercial information technology grade 1 7 university of auckland faculty of computing course master of computing 83 entries in the bibliography language english abstract supply chain management scm offers business benefits but is a difficult concept to master without the right software support this dissertation is aimed at academic and it professionals and scm decision makers or consultants as it provides insights into scm software and the leading concepts behind it a qualitative approach was chosen for answering the research questions which focus on general scm software principles but also enquire benefits functionalities and the software architecture of sap s scm 4 1 solution in addition to that the differences between what decision makers request and what mysap scm 4 1 offers are addressed with the research questions to answer these research questions the structure of the dissertation contains a general introduction to scm software and includes a scm software market overview after this part one major part of the dissertation contains an analysis of the dominant scm software solution mysap scm release 4 1 the examination of mysap scm 4 1 focuses first on technological aspects software architecture technological platform and programming language before the business benefits and functionalities of this scm software are examined after that the functionalities business benefits and the architecture of mysap scm 4 1 are compared with the scm software requirements obtained from ten scm professionals from different industries automotive logistics retail consumer packaged goods consulting and education the analysis of the requirements from scm decision makers gathered using a questionnaire shows that an increase in scm transparency and a reduction of scm costs were the main requirements articulated by decision makers the comparison of the questionnaire with th

the use of microcomputers as decision aids in law practice is increasing rapidly nagel here shows how developments in software over the last few years are making microcomputers practically indispensable to lawyers as decision aids this is in contrast to his earlier book on microcomputers as decision aids in law practice it dealt speculatively with ways in which decision aiding software could be used by lawyers for judicial prediction litigation strategy allocating scarce resources

and negotiation mediation the book is divided into three parts covering general developments specific lawyer skills and application to all fields of law the first part previews various uses of decision aiding software by practicing lawyers including a general discussion of the potential and actual benefits of such software how decision aiding software enhances specific lawyer skills comprises the second and largest part of the work among the topics discussed are computer aided counseling computer aided mediation legal policy evaluation and computer aided advocacy law prediction and legal administration in the third part nagel assesses applications of decision aiding software to all fields of law with an emphasis on contracts property torts family law criminal law constitutional law economic regulation international law civil procedure and criminal procedure in a provocative concluding chapter he deals with the thorny issues of individual ethics and professional responsibility in the context of microcomputers because decision aiding software encourages decision makers to be much more explicit about their goals than they otherwise would be its use raises questions as to whose goals should be pursued and to what degree this is a nuts and bolts guidebook that will be a valuable tool for practicing attorneys with some knowledge of microcomputers and is recommended reading for legal scholars and law students
