this volume is dedicated to the life work of ray chambers who was continually seeking ways to stimulate and advance the development of a demonstrably rigorous and serviceable system of accounting this search for an ideal led chambers into myriad environments an aspect of his life exhaustively illustrated in his aide memoire which forms part of this memorial volume

raymond john chambers was born just over a century ago on 16 november 1917 it is more than fifty years since his first classic accounting evaluation and economic behavior was published more than forty since securities and obscurities reform of the law of company accounts republished in 1980 as accounting in disarray and over twenty since the unique an accounting thesaurus

five hundred years of accounting they are drawn upon extensively in this biography of chambers intellectual contributions as are other of his published works importantly we also analyze archival correspondence not previously examined while chambers provided several bibliographical summaries of his work without the benefits of reviewing and interspersing the text with correspondence materials from the chambers archive this study would lack an appreciation of the impact of his early childhood and nuances related to his practical including numerous consultancies and academic experiences the semi biographical narrative codifies article and editorial length exercises by the authors drawing on parts of the archive related to theory development measurement and communication other parts are also examined this allows us to respond to those critics who claim his reforms were naive they further reveal a man of theory and practice whose theoretical ideas were solidly grounded on observations from his myriad interests and experiences many of his practical experiences have not been examined previously this approach and the first book length biography differentiates this work from earlier analyses of chambers contribution to the accounting literature american accounting association s 2021 thomas j burns biographical research award winner this book provides evidence to support the continued push for the reforms he proposed to accepted accounting thought and practice to ensure accounting is the serviceable technology so admired by pacioli da vinci and many other renaissance pioneers it will be of interest to researchers educators practitioners and regulators alike
