global perspectives in cross cultural and cross national consumer research deals with several important issues crucial for greater understanding of international and cross
cultural consumer behavior this understanding in turn can provide international marketers with valuable insights such as conditions under which globalization may or may
not work the coverage in this book is interdisciplinary in nature and the chapters discuss several constructs intermediary variables processes and also other environmental
influences related to social personal and psychological components or consequences of culture the book begins with a conceptual model of the effect of culture on
consumer behavior with the components and consequences of the cultural influences clearly identified in terms of social personal and psychological factors the following
chapters discuss general issues related to globalization and standardization present conceptual approaches to propositions relating to multicultural contexts and address
consumer complaining behavior and responses to advertising there are five chapters on empirical and methodological studies conducted in specific pairs of countries with
data obtained from canada denmark japan germany poland romania and the united states in presenting readers with new information global perspectives in cross cultural

and cross national consumer research spans these specific topics the nature of cultural influence on consumer behavior globalization versus customization of international marketing strategy individualism versus collectivism right versus left symbolism product involvement consumer response to information technology interdependent versus independent cultures the contributors are well known scholars in the international cross cultural marketing field their chapters present state of the art developments in this area the coverage of the material is interdisciplinary in nature and is likely to benefit a broad audience especially academic researchers in international or cross cultural consumer research and librarians of research oriented schools universities or organizations

the primary purpose of this book is to invite educators to re think what it means to critically conceptualize knowledge about the world in other words imagining curriculum in a critical way means decolonizing mainstream knowledge about global societies such an approach re evaluates how we have come to know the world and asks us to consider the socio political context in which we have come to understand what constitutes an ethical global imagination a critical reading of the world calls for the need to examine alternative ways of knowing and teaching about the world a pedagogy that recognizes how diverse subjects have come to view the world a critical question this book raises is what are the radical ways of re conceptualizing curriculum knowledge about global societies so that we can become accountable to the different ways people have come to experience the world another question the book raises is how do we engage with complexities surrounding social differences such as gender race ethnicity religion etc in the global contexts analyzing global issues and events through the prism of social difference opens up spaces to advocate a transformative framework for a global education curriculum transformative in the sense that such a curriculum asks students to challenge stereotypes and engages students in advocating changes within local global contexts a critical global perspective advocates the value of going beyond the nation state centered approach to teaching about topics such as history politics culture etc it calls for the need to develop curriculum that accounts for transnational formations an intervention that asks us to go beyond issues that are confined within national borders such a practice recognizes the complicated ways the local is connected to the global and vice versa and cautions against creating a hierarchy between national and global issues it also suggests the need to critically examine the pitfalls of forming dichotomies between the local or the national and the global or the center and the periphery

viewed as a social movement for change the global education movement calls for the infusion of a global perspective into all curriculum areas two assumptions of global education include the view of the individual school as the optimal unit for change efforts and the importance of local teacher and school action for lasting school improvement this yearbook defines global education explains its importance describes its implementation and demonstrates its uses for school improvement the first part

examines the context of schooling in which a global perspective can be developed and the second part is directed toward issues of practice in chapter 1 lee f anderson develops an argument for global studies in the schools barbara benham tyne delineates the problems inherent in changing school curriculum in chapter 2 the last chapter of this section by steven l lamy presents a framework for understanding extremist ultraconservative attacks on global education in the next chapter james becker links global education to citizenship education jane a boston discusses educational leadership in global education in chapter 5 ida urso examines the role of teachers in chapter 6 and uses qualitative data to show how global education can promote cross cultural understanding and be a renewing force for teachers in chapter 7 jan l tucker explores the complex problem of creating educational collaborations between schools and universities charlotte c anderson documents many ways in which global education involves schools and students with their communities in chapter 8 in chapter 9 toni fuss kirkwood uses personal experience to show how and why global education has become a successful vehicle for school improvement the conclusion by kenneth a tyne explores themes gathered in a center for human interdependence cih field study of bringing a global perspective to school curricula chapters include references lmi
