protecting children in time provides a highly original analysis of the origins and development of the taken for granted notion that it is possible through social intervention to protect children from avoidable harm and even death to protect children in time by using case studies which span the past 120 years of modern practices and drawing on the work of leading social theorists of modernity and risk society it provides a new way of thinking about constructions of child abuse as a social problem and child protection as a late modern expert system and experience it proposes new ways of conceptualizing relationships between professionals children at risk and families and deepens our understanding of what effective interventions have to involve

the traditional role for teachers in children s play was to structure it setting rules and interrupting if things got out of hand however for children three to five sociodramatic play is a way to invent and make familiar the rhythms and actions of everyday life this text describes why play is a fundamentally important part of children s development and shows how adults can support and promote play the authors offer systematic descriptions and analyses of the different roles a teacher adopts toward this end including those of stage manager mediator player scribe assessor communicator and planner and describe both highly interactive and inhibited children from different economic backgrounds the authors integrate cognitive and psycho dynamic theory as well regarding the scripts children play in both cognitive and affective terms and they discuss the importance of fantasy and reality play themes demonstrating the implications of play for literacy learning

investing in children work education and social policy in two rich countries presents new research by leading scholars in australia and the united states on economic factors that influence children s development and the respective social policies that the two nations have designed to boost human capital development the volume is organized around three major issues parental employment early childhood education and child care and postsecondary education all three issues are intimately linked with human capital development since both australia and the united states have created extensive policies to address these three issues there is potential for each to learn from the other s experiences and policies this volume helps fulfill that potential the authors demonstrate that in both nations the effects of low family income and income inequality emerge early in life and persist however policies that increase parental employment augment family income and promote quality preschool and postsecondary education can boost children s development and at least partially

offset the negative developmental effects of family economic disadvantage

this book provides parents with help for children with cerebral palsy or other developmental delay master gross motor skills beginning in infancy organised in the sequence children acquire gross motor skills this guide explains how motor development unfolds and how cerebral palsy can affect it
