in republican colombia salt became an important source of revenue not just to individuals but to the state which levied taxes on it and in some cases controlled and profited from its production the salt trade consistently accounted for roughly 10 percent of government income in the town of la salina de chita in boyaca province thermal springs offered vast amounts of salt and its procurement and distribution was placed under the jurisdiction of the ministry of finance focusing his study on la salina joshua m rosenthal presents a fascinating glimpse into the workings of the early colombian state its institutions and their interactions with local citizens during this formative period although historians have cited the state s weakness and in many cases its absence in local affairs rosenthal counters these assumptions by documenting the primary role the state held in administering contracts inspections land rights labor and trade in la salina contending that this was not an isolated incident he also uncovers the frequent interaction between the state and local residents who used the state s liberal rhetoric to gain personal economic advantage seen through the lens of the administration of la salina s saltworks rosenthal provides a firsthand account of the role of local institutions and fiscal management in the larger process of state building his study offers new perspectives on the complex network of republican colombia s political culture and its involvement in provincial life across the nation

larosa y mejía han hecho algo muy útil ofrecerle al interesado un estudio completo actualizado bien investigado y de lectura fluida sobre colombia un país que a pesar de su tamaño su riqueza y su importancia geopolítica sigue siendo uno de los países menos conocidos y peor comprendidos de américa latina aunque ambos autores son historiadores profesionales su libro no es un trabajo académico tradicional es abiertamente presentista como a veces dicen los historiadores con cierto desdén sus diez capítulos apuntan menos a diseccionar los misterios del pasado el ejercicio favorito de los académicos que a explicar del modo más conciso posible cómo colombia se volvió lo que ahora es en pocas palabras muestran el surgimiento de este país como una nación moderna viable y a todas luces exitosa pamela murray

ensayos políticos de uno de los mejores historiadores de colombia una historia política de colombia reúne dos de los ensayos más importantes del historiador Álvaro tirado mejía el estado y la política en el siglo xix y colombia siglo y medio de bipartidismo que por muchos años han estado fuera de circulación y que ilustran en conjunto cómo se dio la construcción del estado

colombiano durante los siglos xix y xx en medio de las tensiones y conflictos que dieron pie al surgimiento de los partidos políticos colombianos y que desembocaron en el frente nacional esta recuperación tiene gran valor a la luz de los hechos actuales por primera vez llega al poder un gobierno de izquierda con un gran apoyo popular un giro sorprendente para un estado mediado mayoritariamente por un modo de pensar conservador promotor de las tradiciones y con una gran influencia de la iglesia católica en la determinación de la educación las libertades individuales y la institucionalidad sin embargo también ha sido un país donde las ideas liberales más progresistas han marcado hitos importantes como la abolición de la esclavitud la libre creación de empresa la educación laica y la libertad de cultos aunque siempre de la mano de una estirpe política enraizada en las clases altas y poderosas este es en resumen un libro clave para entender nuestra historia política y para conocer cómo y quiénes desde sus posiciones privilegiadas tomaron las decisiones que dieron forma a la nación
