wissenschaftlicher aufsatz aus dem jahr 2009 im fachbereich bwl offline marketing und online marketing note 1 0 technische universit t carolo wilhelmina zu braunschweig institut für marketing veranstaltung international email debate sprache deutsch abstract developing countries face serious threats in various fields nowadays many attempt to keep up with globalization however often at the expense of their environment and people this work aims to point out the importance of sustainable policies especially in developing countries and the opportunities arising from a new way of thinking eventually attempting to prove that sustainability and economic growth are no options to be chosen in neglectance of the other

for those wishing to acquire knowledge on national development issues this comprehensive compendium traverses a spectrum of subjects that the audience ought to be well acquainted with the editors provide instructive findings regarding national development economic growth and their determinants but they also offer historical perspectives on the subject and the implications for developing countries the book addresses a suite of critical themes regarded by development experts to be germane in considering the pertinence of policies and their effective execution these seven general thematic areas are explored leadership governance policy and strategy public sector and public financial management culture institutions and people natural

resources science technology and infrastructure private sector and financial markets marketing branding and service delivery this thematic approach enables the contributors to explore the impact of the constituents of each subject area on national development within the context of a developing economy the significance of the findings for the relevant stakeholders is consequently reviewed the combination of theory and practice makes the book and its contents unique

first published in 2005 routledge is an imprint of taylor francis an informa company

the developing countries and the world economic order provides a lucid introduction to the debate about the developing countries and the quest for a new international economic order the primary objective is to indicate some of the fundamental requirements that must be satisfied by an equitable world order since the present economic situation and demands of developing countries cannot be understood thoroughly without prior knowledge of how the present world order has evolved part i begins with a detailed historical survey an account of economic development up to the second world war and of the colonial heritage of the developing countries is followed by a description of the way in which the postwar world order came into being part ii analyses more recent developments including the central demands of developing countries and the background to these demands and outlines a new perspective on the nio programme with suggestions are offered on how the developing countries could secure for themselves a larger share of the world's resources a major theme of the book is that important changes in the world order take place irrespective of the recommendations adopted at international conferences

this reissue first published in 1969 is a study of contemporary social policy in developing countries which places the emphasis upon the human needs and requirements for social change which confront any people and any government wherever their political and international affiliations lie whatever their economic and social convictions may be

this powerful book shows how poor countries can ignite growth without waiting for global action or the creation of ideal local conditions

this book is about indigenous ways of farming in northern malawi in the face of modernization and globalization pressures it also impacts modernization and globalization in relation to agriculture and environment in the developing countries laying bare their impacts on smallholder farmers agriculture in general industry and the environment

this book presents paths developing countries can pursue in order to reclaim their ability to take action and improve people s living conditions in the long term according to dominant economic theory markets are the essential engines of growth and poverty reduction in developing countries however the track record so far is disappointing on the other hand poor countries which are exposed to the dynamics of global capitalism have little chance to implement alternative development strategies policy actions for a fairer income distribution or for more public investment run the risk of being punished by financial markets and capital flight the book presents solutions to these issues considering key economic foundations and outlining feasible development strategies it is therefore a must read for policy makers and practitioners working on fighting global poverty as well as scholars and students of economics interested in a better understanding of development economics economic growth and financial economics

globalization is not a pa

information on the flow of financial resources to developing countries and their foreign indebtedness
