technology is taking on an increasingly central and determining role in society and can provide contradictory results: wealth on the one hand but also unemployment, environmental imbalances and other social problems on the other. Manufacturing techniques and production organization are chosen in every country based mainly on the specific needs of the companies, while the real needs of each population are often quite different. Already in order to prevent all forms of technology from becoming increasingly invasive towards both the natural supply of resources and the specific though highly differentiated needs of humanity, technological paths must be identified and followed which are capable of making the various needs compatible from the standpoint of sustainable development: the conservation and increase in value of natural resources and the quality of development. This will become increasingly important in the future. This goal is undoubtedly ambitious and difficult to achieve, however, evidence of the problems caused by generalized uncontrolled use of technology all over the world leads us to believe that intense efforts must be made to achieve this aim. If not, humankind runs the risk of an irreversible degradation of the most important aspects of economic development and its quality. Within this framework, those companies that produce goods and services obviously occupy a central, active role which they must play with a view both to competitiveness and overall qualification and to contributing to the objectives of sustainable development.

Europe is a gay adventure just waiting to happen, written in a fun, frank and fabulous style by four travel writers who know all the ins and outs. Frommer's Gay Lesbian Europe is the first queer guide to Europe to include coverage on all aspects of your trip: from how to get there to how to get around, from where to stay and dine to where to shop, from what to see and do to where to work out, from where to sip a cocktail to where to cruise. No matter what your budget, you'll find candid reviews of the best hotels and restaurants, mainstream gay-friendly and all-out gay. Are you looking for a plush suite with silk-covered walls and baroque paintings at the Hôtel Costes in Paris, a pleasant room with hand-hewn beams at the Hotel Bernardi Semenzato in Venice, or an atmospheric room with bondage hooks and a galvanized steel cage at the Black Tulip in Amsterdam? Feeling hungry, you can choose from French haute cuisine, British pub fare, German comfort food, Spanish tapas, Greek specialties and more. Frommer's Gay Lesbian Europe also offers the dish on queer sights: do you know where Oscar Wilde died and where he's buried? Where there's a homomonument, where there's a gay museum, neighborhoods and beaches, plus all the top attractions. The guide also shows you where to shop for everything from antiques to clubwear to toys and sends you to the best venues for the performing arts and, of course, it gives the lowdown on what to do after dark: bars and cafés, discos, saunas and more. If all that weren't enough, there are also fun little features like a Queen's English on British gay slang, the Queer Quiz on British gays, and a toast for the boys on where to find toast, not what you think it is, on your way home from the clubs in Athens.
