the birthmarked trilogy birthmarked prized promised in the future there are those who live inside the wall and those like sixteen
year old midwife gaia stone who live outside perfect for fans new to the series the three books of caragh o brien s birthmarked
trilogy are available together in this bundle birthmarked gaia has always believed it is her duty with her mother to hand over a

small quota of babies to the enclave but when gaia's mother and father are arrested by the very people they so dutifully serve gaia is forced to question everything she has been taught to believe. Striking out into the wasteland with nothing but her baby sister and a rumor to guide her, gaia survives only to be captured by the people of Sylum, a dystopian society where women rule the men who drastically outnumber them and a kiss is a crime. In order to see her sister again, gaia must submit to their strict social code but how can she deny her sense of justice, her curiosity, and everything in her heart that makes her whole? Promised after defying the ruthless enclave, surviving the wasteland, and upending the rigid matriarchy of Sylum, gaia now faces her biggest challenge ever: she must lead the people of Sylum back to the enclave and persuade the Protectorate to grant them refuge from the wasteland. Is gaia ready as a leader to sacrifice what or whom she loves most? Includes bonus chapters from Caragh M O'Brien's *Vault of Dreamers*.

Having escaped from the corrupt enclave, gaia ventures into the wasteland with her baby sister Maya, hoping to find a settlement that's rumored to lie in the dead forest. After days of travelling, gaia is close to death when Peter, a ranger from the mysterious village of Sylum, finds her and takes her back with him. Gaia soon realizes that Sylum has as many strict laws as the enclave she fled from, but when Maya is taken from her by the ruthless village leader, the matriarch, gaia is forced to stay and submit to their strict social code or risk losing her sister forever. But Sylum is in trouble: the population is falling and the amount of women is dwindling dramatically, and with a deadly fever affecting striking down anyone who tries to leave, the future is bleak. For the village, desperate to escape with her sister, gaia is determined to uncover the secrets of the village whatever it takes. And when Leon is captured too, gaia is faced with another tough choice: between the boy who captured her heart in the enclave and Peter, for whom she can't deny her growing feelings, but when the decisions you make affect the lives of everyone around you, how

can you be sure you're making the right choices

Caragh M O'Brien's *Promised* is the conclusion to the thrilling YA dystopian adventure Birthmarked trilogy where the world is divided between those who live inside the wall and those who live outside after defying the ruthless enclave surviving the wasteland and upending the rigid matriarchy of Sylum. Gaia Stone now faces her biggest challenge ever: she must lead the people of Sylum back to the enclave and persuade the Protectorate to grant them refuge from the wasteland. In Gaia's absence, the enclave has grown more cruel, more desperate to experiment on mothers from outside the wall, and now the stakes of cooperating or rebelling have never been higher. Is Gaia ready as a leader to sacrifice what or whom she loves most?

From the author of the Birthmarked trilogy comes this harrowing YA series debut, a dystopian thriller about what happens when your dreams are not your own. The Forge School is the most prestigious arts school in the country; the secret to its success: every moment of the students' lives is televised as part of the insanely popular Forge show, and the students' schedule includes twelve hours of induced sleep meant to enhance creativity. But when first-year student Rosie Sinclair skips her sleeping pill, she discovers there is something off about Forge. In fact, she suspects that there are sinister things going on deep below the reaches of the cameras in the school. What's worse is she starts to notice that the ridges of her consciousness do not feel quite right, and soon she unearths the ghastly secret that the Forge School is hiding and what it truly means to dream. There, strange things are afoot at an elite school for artistic geniuses that is also the setting for a reality television show. A fast, satisfying psychological thriller, *Kirkus Reviews* says O'Brien mixes the appeal of a classic boarding school novel with modern concerns about surveillance and reality as performance art while questioning how human perception creates that reality in the first place. Publishers Weekly, like O'Brien's Birthmarked trilogy, this dystopian sci-fi psychological thriller hybrid raises ethical and moral questions about science. This

might have been a difficult story to pull off given the environment but with a likable narrator who is thoroughly unimpressed with herself it works this should have wide appeal booklist
