this edited book provides a hard hitting and deliberately provocative overview of the relationship between evidence policy and practice how policy is implemented and how research can and should influence the policy process it critiques the notion of evidence based practice suggesting instead a more inclusive idea of knowledge base practice based in part on the lived experience of service users it will be of interest to everyone in health and social care policy practice and research

the importance of evidence informed approaches in policy formulation and implementation has long been recognized by the world health organization who and its member states with the general programme of work gpw 13 and the creation of the science division who has reinforced its science and evidence based mandate this guide offers staff and partner organizations a compendium of who tools to successfully leverage evidence for policy and impact and promote evidence informed decision making for safe and effective health policy and practice at country and global levels through its framework the guide will increase awareness and uptake of existing tools and best practices and additionally facilitate collaboration between areas within the organization and with partners across countries and regions

this book provides policy guidance to help policy makers address women s and girls needs for financial education and a comprehensive analysis of the current status of knowledge on gender differences in financial literacy and policy responses in terms of financial education for women and girls

in this important new book ray pawson examines the recent spread of evidence based policy making across the western world few major public initiatives are mounted these days in the absence of a sustained attempt to evaluate them programmes are tried tried and tried again and researched researched and researched again and yet it

is often difficult to know which interventions and which inquiries will withstand the test of time the evident solution going by the name of evidence based policy is to take the longer view rather than relying on one off studies it is wiser to look to the weight of evidence accordingly it is now widely agreed the most useful data to support policy decisions will be culled from systematic reviews of all the existing research in particular policy domains this is the consensual starting point for ray pawson s latest foray into the world of evaluative research but this is social science after all and harmony prevails only in the first chapter thereafter pawson presents a devastating critique of the dominant approach to systematic review namely the meta analytic approach as sponsored by the cochrane and campbell collaborations in its place is commended an approach that he terms realist synthesis on this vision the real purpose of systematic review is better to understand programme theory so that policies can be properly targeted and developed to counter an ever changing landscape of social problems the book will be essential reading for all those who loved or loathed the arguments developed in realistic evaluation sage 1997 it offers a complete blueprint for research synthesis supported by detailed illustrations and worked examples from across the policy waterfront it will be of especial interest to policy makers practitioners researchers and students working in health education employment social care criminal justice regeneration and welfare
