inhaltsangabe introduction in the current time there is no area in life that is not subject to change even within the distribution changes have taken place in the course of the years one significant factor of change in the distribution is the introduction of multiple distribution channels the multi channel management the term multi channel is not new but for all that it has gained

of importance for companies this statement is valid for companies in the national as well as in the international fields it has more or less substituted the meaning of a single channel distribution which was more practiced in the past multi channel management has become a significant issue when coming to the distribution of goods and the market development thereby factors such as the attitude of the competition the internal development of the company and especially the consumer behavior have determined the enhancement of its importance moreover the development of information and communication technology has led to the introduction of new distribution channels as e g the internet next to the traditional channels which are the mail order business or the stationary distribution channels among others the demand for companies offering different purchasing ways respectively channels has been increasing the reason for this development is the fact that consumers have recognized the variety of ways they are able to choose in order to acquire a product this involves that consumers set high value on the distribution channels offered by the companies the increased consumer demand cannot be only noticed in germany but also in the international context as a consequence companies have been forced to modify their distribution strategies in order to be able to fulfill the consumer needs and thus assuring the customer retention further on but the multi channel distribution is not only a necessity on the other hand it is linked with additional possibilities for companies for instance they can achieve cost advantages such as the increase of the total revenue the management of parallel running channels is not as easy as one might think and in addition a multi channel management bears some risks these two aspects lead to the necessity that the companies have to be engaged in the involvement of distribution channels in the arrangement of the channel mix as well as in the coordination of the multi channel system it always has to be stressed that the

it has been said that every generation of historians seeks to rewrite what a previous generation had established as the standard interpretations of the motives and circumstances shaping the fabric of historical events it is not that the facts of history have changed no one will dispute that the battle of waterloo occurred on june 11 1815 or that the allied invasion of europe began on june 6 1944 what each new age of historians are attempting to do is to reinterpret the motives of men and the force of circumstance impacting the direction of past events based on the factual social intellectual and cultural milieu of their own generation by examining the facts of history from a new perspective today s historians hope to reveal some new truth that will not only illuminate the course of history but also validate contempo rary values and societal ideals although it is true that tackling the task of developing a new text on logistics and distribution channel management focuses less on schools of philosophical and social analysis and more on the calculus of managing sales campaigns inventory replenishment and income statements the goal of the management scientist like the historian is to merge the facts and figures of the discipline with today s organizational cultural and economic realities hopefully the result will be a new synthesis where a whole new perspective will break forth exposing new directions and opportunities
