any course in sociological or political theory requires a keen understanding of marx durkheim and weber yet for undergraduates their first encounter with the ideas of these three thinkers often proves a difficult experience now ken morrison offers students a clear exhaustive guide to the key ideas produced by marx durkheim and weber not only does he explain the meaning of key ideas but he also places them in their appropriate historical context students therefore gain an immediate grasp of both the roots and contemporary relevance of the concepts presented and just as important how they relate to classical tradition in addition an unparalleled glossary is included if you are teaching a course on sociological or political theory or if you want a quick brush up on the ideas of these three key thinkers look no further than this volume this is an excellent introduction to classical social theory for most students it is the only book on the subject that they will need the expositions are clear

and comprehensive outlining with almost alarming clarity ideas with which many of us have to struggle alan bryman professor of social research loughborough university

modern social thought ranges widely from the social sciences to philosophy political theories and doctrines cultural ideas and movements and the influence of the natural sciences provides an authoritative overview of the main themes of social thought long essays and entries give full coverage to each topic covers major currents of thought philosophical and cultural trends and the individual social sciences from anthropology to welfare economics new edition updates about 200 entries and includes new entries suggestions for further reading and a bibliography of all sources cited within the text

modern social thought ranges widely from the social sciences to philosophy political theories and doctrines cultural ideas and movements and the influence of the natural sciences provides an authoritative overview of the main themes of social thought long essays and entries give full coverage to each topic covers major currents of thought philosophical and cultural trends and the individual social sciences from anthropology to welfare economics new edition updates about 200 entries and includes new entries suggestions for further reading and a bibliography of all sources cited within the text

this book is a history of the field of sociology as it existed from the interwar wartime and postwar periods in france and its empire this does not refer just to sociologists who did some work in the colonies or occasionally thought about them in their metropolitan work but a specific field which was constituted to understand and then govern these colonies the author argues that the re founding of french sociology during and after world war ii which spawned the likes of raymond aron jacques berque georges balandier and pierre bourdieu occurred within the context of the re founding of the french empire though there was been much discussion of decolonizing sociology in the postwar period the deep history of sociology s connection to french colonialism and empire has been ignored when the author argues it is central the main driver of the expansion of sociology in this period was colonial developmentalism sociologists became favored partners of colonial governments applying their expertise to an array of social problems such as de tribalization poverty labor migration rapid urbanization and the growth of shantytowns and the decay of traditional families and religious beliefs and working on modernizing solutions many sociologists whose careers began in the overseas colonies formulated concepts and theories that quickly entered metropolitan and then global sociology and their origins were forgotten steinmetz examines the ways in colonial sociologists differed from the rest of the discipline in many ways they represented its most dynamic cutting edge and how their locations may have affected their intellectual agendas and scholarship he explores the ways in which these sociologists networked and tracks their major intellectual innovations and influence as a group he also explores the marginalization faced by both sociologists working in the colonies and those born there while showing the ways in which they were able to overcome them the specific challenges of colonial sociology including some very strongly anticolonial colonial sociologists shaped sociological theory in ways that are still dominant the book amounts to a historical sociology of french academia all told with an emphasis on sociology and other human sciences as well as a collective biography of many of the major figures many who are continually read and cited

to this day

including contributions from twenty two leading moral theologians this volume is the most thorough assessment of modern roman catholic social teaching available in addition to interrogations of the major documents it provides insight into the biblical and philosophical foundations of catholic social teaching addresses the doctrinal issues that arise in such a context and explores the social thought leading up to the modern era which is generally accepted as beginning in 1891 with the publication of pope leo xiii s rerum novarum the book also includes a review of how catholic social teaching has been received in the united states and offers an informed look at the shortcomings and questions that future generations must address this second edition includes revised and updated essays as well as two new commentaries one on pope benedict xvi s encyclical caritas in veritate and one on pope francis s encyclical laudato si an outstanding reference work for anyone interested in studying and understanding the key documents that make up the central corpus of modern catholic social teaching

this text provides an accessible survey of western social thought from the early twentieth century to today by tracing the emergence evolution and consequence of ideas expressed by recognized social and political theorists as well as poets novelists and visual artists

built upon a series of critical encounters with major figures in classical and present day social and political thought this volume offers not only a challenging critique of major traditions of social and political analysis but unique insights into the ideas which giddens has developed over the past two decades

reassesses the short life and career of american essayist critic and founder of cultural radicalism bourne 1886 1918 known today mostly for his opposition to us military involvement in europe and warnings about the military industrial complex vaughan political science u of minnesota duluth argues that his stance from outside establishment perspectives was not a retreat from politics as many have claimed but a form of political engagement free from the suppositions that impede genuine debate and democratic change annotation copyrighted by book news inc portland or

contains papers that appeal to a broad and global readership in all fields of economics

includes section book reviews and notes
