Master Tung Acupuncture Master Tung Acupuncture is a renowned traditional Chinese medical technique that has gained widespread recognition for its remarkable effectiveness in treating a variety of health conditions. Developed by Master Tung Ching Chang in the mid-20th century, this acupuncture system is distinguished by its unique approach, specialized points, and profound therapeutic outcomes. Unlike conventional acupuncture, which primarily focuses on meridian points along the body's surface, Master Tung Acupuncture emphasizes a set of extraordinary points and methods that aim to restore balance and harmony within the body swiftly and efficiently. Today, this technique continues to influence practitioners worldwide, offering a holistic and natural alternative for pain relief, chronic illnesses, and overall well-being.

Origins and History of Master Tung Acupuncture

Background of Master Tung Ching Chang Master Tung Ching Chang was a highly skilled acupuncturist born in a small village in Hunan Province, China. From a young age, he was exposed to traditional Chinese medicine (TCM) through his family, who practiced herbal medicine and acupuncture. Recognized for his exceptional talent, Tung dedicated his life to exploring and expanding upon existing acupuncture theories, eventually developing his own system that combined classical principles with innovative techniques.

Development of the Technique

Master Tung's acupuncture system emerged from his extensive clinical experience and deep understanding of TCM theories such as Qi flow, yin-yang balance, and the Five Elements. His method emphasizes a set of specific points on the body, many of which are located on the extremities, and employs unique needling techniques. Tung's approach is characterized by its simplicity, rapid results, and minimal discomfort, making it particularly popular among practitioners and patients.

Spread and Recognition

After decades of practice, Master Tung's techniques were passed down through generations of practitioners, initially within his family and later through dedicated students. In the 1970s and 1980s, his methods gained

international attention, especially in Hong Kong and Taiwan, leading to the establishment of clinics and training programs worldwide. Today, Master Tung Acupuncture is recognized as a distinct and highly effective system within the broader field of traditional Chinese medicine.

Core Principles of Master Tung Acupuncture

Unique Point Selection

One of the defining features of Master Tung Acupuncture is its unique set of acupuncture points, often different from those used in classical TCM. Many points are located on the fingers, toes, hands, and feet, facilitating easy access and precise targeting of ailments.

Focus on Extra Points

Master Tung identified a series of "extra points" that are not part of the traditional meridian system but have powerful therapeutic effects. These points often correspond to specific organs or symptoms and are used extensively in treatment.

Holistic and Symmetrical Approach

The technique emphasizes treating the whole person rather than just isolated symptoms. It considers the balance of energy, organ functions, emotional states, and physical health, aligning with the holistic philosophy of TCM.

Rapid and Long-Lasting Results

Practitioners report that treatments using Master Tung Acupuncture often produce swift relief, sometimes after just one session. The method aims for durable results by addressing underlying imbalances.

Key Techniques and Methods in Master Tung Acupuncture

Needling Techniques

Master Tung practitioners employ various needling methods, including shallow insertion, quick needle manipulation, and the use of specific angles to optimize therapeutic effects. The technique is generally gentle, minimizing patient discomfort.

The treatment involves selecting points based on the patient's symptoms, body constitution, and Tong (Tung's system of diagnosis). Common protocols may include:

- Using specific points for pain relief
- Points to boost immunity
- Points for internal organ regulation

Symptom-specific point combinations

Needle Placement and Retention

In many cases, needles are retained for a certain duration, typically 15–30 minutes, depending on the condition. In some instances, practitioners may perform electro-acupuncture or moxibustion to enhance effects.

Although Master Tung's acupuncture has been in the public domain since his untimely passing in 1975, very little information is available publicly on how to use the system in a practical and systematic way in English. In this book, I hope to guide my fellow colleagues into the intricacies of applying Master Tung's acupuncture in the clinic. Since I am also a practicing acupuncturist and deal with pain, women's health, and internal medicine problems quite frequently, I am sharing my clinical experience in this book and the secret of creating the protocols that I use daily with modification. I also attempt to explain why I choose a particular protocol and the modification to it. In this book, I introduce what I consider the best of Master Tung's acupuncture. There are many books on Master Tung's acupuncture which introduce all of the 740 Tung family points, but often these books may be too much for the beginner and do not let the beginner grasp useful concepts or how to use Master Tung's acupuncture immediately and effectively. Most acupuncturists simply add the Tung points to their already memorized TCM acupuncture point prescriptions, and as a result, make a mess out of their acupuncture. They do not have a simple and elegant rationale for using the system. In my teaching of

master tung s acupuncture i always choose points that are painless easily accessible and have powerful immediate results

in this book i use a lot of standard acupuncture points along with master tung s acupuncture and emphasize the use of channels and imaging for optimal clinical use if a practitioner can use this work they can have a turnkey approach in the clinic simply by implementing these acupuncture and herbal protocols the idea is for each disease i have installed cheat sheets for the practitioner to immediately refer to and try to insert needles and prescribe herbs for the fifth in the series of master tung s acupuncture books the idea is for someone to start with the master tung s primer the best of master tung s acupuncture master tung s acupuncture for pain and master tung s acupuncture for internal medicine disorders with this manual we will discuss the use of master tung s acupuncture with herbals for even greater clinical success the book is composed of monographs on each disease best points to treat the problem and high percentage success herbal prescriptions to give the patient as homework unique is that we only use a handful of both tcm and master tung points and a small amount of herbal formulas for a turnkey approach to a clinic this can be used as a roadmap for the new clinician improve clinical success for the intermediate practitioner or provide an alternative approach for the seasoned veteran

this book is a primer an introduction of the quintessential basics something that a person who has not attended my seminars could read quickly and immediately familiarize themselves with the core concepts imaging channel methods have a few go to points and immediately apply the magic of master tung s acupuncture in the clinic it is not exhaustive in theory details or intricacies but shows the power of the system to a tcm trained acupuncturist and immediately benefit by it when i first started working with master tung s acupuncture in acupuncture school i read the available books of that time and wished there was a simple book to present the information since the average acupuncturist already is familiar with over 400 points why scrap that and begin another system but in the way i wrote this primer they can simply add to the information they have and then immediately apply this in the clinic there are many books on master tung s acupuncture but often these books may be too much for the beginner and do not let

the beginner grasp useful concepts or how to use master tung s acupuncture but don t underestimate the power of the content of this book it will certainly transform your practice the idea of this book is to give you a simple and elegant rationale for using the system use the powerful 14 channel acupuncture you are already familiar with and make use of the master tung system immediately
