mark twain is america s perhaps the world s best known humorous writer yet many commentators in his time and our own have thought of humor as merely an attractive surface feature rather than a crucial part of both the meaning and the structure of twain s writings this book begins with a discussion of humor and then demonstrates how twain s artistic strategies his remarkable achievements and even his philosophy were bound together in his conception of humor and how this conception developed across a forty five year career kolb shows that twain is a writer whose lifelong mode of perception is essentially humorous a writer who sees the world in the sharp clash of contrast whose native language is exaggeration and whose vision unravels and reorganizes our perceptions humor in all its mercurial complexity is at the center of mark twain s talent his successes and his limitations it is as a humorist amiably comic sharply satiric grimly ironic simultaneously humorous and serious that he is best understood

the only compact yet comprehensive survey of environmental and cultural forces that have shaped the visual character and geographical diversity of the settled american landscape the book examines the large scale historical influences that have molded the varied human adaptation of the continent s physical topography to its needs over more than 500 years it presents a synoptic view of myriad historical processes working together or in conflict and illustrates them through their survival in or disappearance from the everyday landscapes of today
