in 1972 in an attempt to elevate the stature of the crime novel influential crime writer and critic julian symons cast numerous golden age detective

fiction writers into literary perdition as humdrums condemning their focus on puzzle plots over stylish writing and explorations of character setting and theme this volume explores the works of three prominent british humdrums cecil john charles street freeman wills crofts and alfred walter stewart revealing their work to be more complex as puzzles and as social documents than symons allowed by championing the intrinsic merit of these mystery writers the study demonstrates that reintegrating the humdrums into mystery genre studies provides a fuller understanding of the golden age of detective fiction and its aftermath

reproduction of the original masters of the english novel a study of principles and personalities by richard burton

unlike anything currently available a critical companion to tim burton is a comprehensive up to date analysis of all the works of one of the world s most renowned directors and artists written by some of the top scholars working in fields as diverse as philosophy film and media studies and literature all chapters of this book illuminate for both scholars and fans alike the entire artistic career of burton giving attention to both his early works and his global blockbusters
