for today's readers to understand the history of sociological theories more is
required than a knowledge of formal propositions and theoretical structures in
this impressive and enduring text Coser elucidates his examination of the
ideas of fifteen influential sociological thinkers with a discussion of the social
and intellectual circumstances that surrounded them each of the first fourteen

chapters follows a parallel organization the first section is a capsule summary of the scholar s work his main orientations ideas and contributions next is a short sketch of his life his struggles and successes the influences of his family peers and superiors and his involvement in community affairs the third section locates him and his work in the texture of a particular moment in intellectual history the concluding section addresses sociological questions such as what were the social origins of the theorist did crucial events e g war depression revolution help fashion his orientations in ways similar to those of others in his generation the final chapter presents a less detailed discussion of major american theorists whose theories emerged between the 1940s and 1960s

in this second volume of main currents of sociological thought raymond aron continues the analysis begun in the first volume of the great doctrines of historical sociology aron explores the work of three figures who profoundly shaped sociology as it entered the twentieth century emile durkheim the great french theorist of consensus who continued auguste comte s quest for a science of society and a scientific validation of morality vilfredo pareto the italian neo machiavellian who mocked traditional morality and humanitarian pretensions and emphasized the oligarchic or elitist character of all societies and the german sociologist max weber who reflected continuously on the relationship between science and action filled with deep foreboding about the prospects for human freedom in an age marked by bureaucratization and rationalization aron presents rich portraits of these three thinkers drawing from them what remains of enduring worth even as he distances himself from durkheim s project for a science of society pareto s exaggerated critique of humanitarianism and weber s tragic pessimism aron s book is essential for clarifying his profound indebtedness to and crucial divergences from the thought of max weber the sociologist par excellence in aron s view together with volume 1 which treats the work of montesquieu comte marx and toqueville it forms the definitive survey of the great social thinkers to date yet as daniel j mahoney and brian c anderson explain in their introduction main currents is more than a survey it is above all a challenge to contemporary social science to retain the ambition of an older philosophically informed sociology to present an interpretation of modern society and to reflect on the meaning of universal history

m created

this book provides complete systematic expositions of the classical sociological thinkers theories and concepts from the 18th century enlightenment to the 20th century it features broad extended and balanced coverage of both the european theorists of social structure as well as the classical american theorists of social psychology covers montesquieu rousseau mary wollstonecraft bonald and maistre saint simon auguste comte

alexis de toqueville harriet martineau harriet taylor and john stuart mill karl marx frederick engels max weber gaitano mosca robert michels Émile durkheim karl mannheim charles sanders peirce william james john dewey george herbert mead for anyone interested in classical social theory and classical principles of social psychology

this is the second of raymond aron s classic two volume survey of the sociological tradition arguably the definitive work of its kind aron explores the work of three figures who profoundly shaped sociology as it entered the twentieth century Émile durkheim who continued auguste comte s quest for a science of society and a scientific validation of morality vilfredo pareto the italian neo machiavellian who emphasized the oligarchic or elitist character of all societies and the german sociologist max weber who reflected critically on the prospects for human freedom in an age marked by bureaucratization and rationalization aron presents rich portraits of these three thinkers drawing out the enduring insights that remain in their work at the same time he reflects critically on durkheim s project for a science of society pareto s critique of humanitarianism and weber s tragic pessimism above all the book is remarkable for demonstrating aron s lifelong indebtedness to and divergence from the thought of max weber the sociologist par excellence in aron s view this routledge classics edition includes an introduction by daniel j mahoney and brian c anderson

rather than a work of theory itself explorations in classical sociological theory seeing the social world is an insightful work that invites students to think creatively reflexively and critically about their social worlds written in a conversational tone that lifts the veil of theoretical jargon explorations in classical sociological theory introduces students to the major classical theorists including marx spencer durkheim weber simmel mead schutz gilman and du bois this text focuses on the individual perspective of each theorist rather than schools of thought and uses the provocative ideas of modernity and postmodernity to help students understand how the theoretical historical perspectives apply to their own time period

the book deals with all aspects of sociological theories in detail from auguste comte to arnold j toynbee in the introductory chapter 1 various aspects of social thought have been described in an excellent manner in the following chapters the contributions of great sociologists like auguste comte karl marx herbert spencer sorokin max weber cooley talcott parsons vilfredo pareto emile durkheim ferdinand tonnies george simmel thorstein veblen robert k merton and arnold j toynbee have been discussed in a clear and lucid way special importance has been given to karl marx and emile durkheim in chapter 3 and 10 respectively and their various theories have been given in a graphic manner so as to meet the requirements of the students of political science

and public administration in particular and other students in general

designed to help students discover and foster a natural interest in sociology the story of sociological theory contextualizing social thinkers introduces students to key sociological concepts and theories in a highly approachable way the opening chapter defines sociology explains why we study sociology and presents a brief history of social theory each proceeding chapter focuses on a general theme and provides readers with the context and ideas from influential thinkers students read about the works of herbert spencer william graham sumner and ludwig gumplowicz related to the interplay of genetics and sociology they engage with max weber s ideas surrounding verstehen charles ellwood s thoughts on group behavior and karl marx s theory of change additional chapters address feminist theory postmodernism and poststructuralism throughout the book chapter introductions comprehension questions critical thinking questions summaries and recommended reading lists provide valuable context enrich the learning experience and encourage further exploration of the subject matter the story of sociological theory provides students with an accessible introduction to the discipline and also effectively demonstrates how sociological thought is woven into our everyday lives the text is an excellent resource for undergraduate programs and courses in sociology and sociological theory

a collection of the most relevant and noteworthy works of classical sociological thinkers in one single volume over the years many textbooks have been written about the troika of sociological geniuses marx durkheim and weber too often however these works have been mere distillations of the views of the great thinkers they did not intend nor could they hope to capture the subtleties and nuances of the original texts with the publication of ian mcintosh s classical sociological theory a reader extracts of the most relevant and noteworthy works of the classical sociological thinkers are available for the first time in a single volume here we find lengthy excerpts from marx s communist manifesto and the german ideology weber s protestant ethic and the spirit of capitalism durkheim s the division of labour in society and suicide a study in sociology generous portions of fifteen other texts are included here as well as selected correspondence of karl marx each extract is prefaced by an introduction which provides the reader with essential background information on each author s weltanschauung without telling the student what to think or encapsulating the excerpt to follow brief biographies of the principals and guides for further reading provide the student with a frame of reference for the texts classical sociological theory a reader is not a replacement for the full texts in the original it is however an enticement whetting the appetite for further exploration of the masters of sociological thought

in a history of social thought emory s bogardus offers an insightful examination of the evolution of social theories that have shaped human societies the book meticulously delves into the contributions of various thinkers contextualizing their ideas within historical movements and cultural frameworks with a clear and accessible literary style bogardus crafts a narrative that not only chronicles social thought from ancient times to contemporary theory but also engages readers in critical analysis encouraging them to reflect on the complex interplay between society and thought emory s bogardus was a prominent sociologist whose academic career spanned several decades punctuated by a commitment to understanding social dynamics in a rapidly changing world his extensive research and engagement with different social sciences influenced his perspectives on how ideologies shape societal structures his background in sociology and education allowed him to synthesize diverse viewpoints and present them in a cohesive manner making the text not only informative but also impactful for both scholars and students alike this book is highly recommended for anyone seeking a comprehensive overview of social theory and its historical context bogardus s work serves not just as a valuable academic resource but also as a thought provoking narrative that fosters a deeper understanding of the foundations of contemporary social issues

published in 1998 the fundamental forms of social thought is a valuable contribution to the field of sociology and social policy

the second volume of the landmark study examining the work of sociology s defining thinkers from the turn of the nineteenth century to the interwar period main currents in sociological thought remains a foundational synthesis in the field in this second and final volume of his classic survey raymond aron explores the work of three figures who profoundly shaped sociology as it entered the twentieth century durkheim who continued comte s quest for a science of society and a scientific validation of morality pareto the italian neo machiavellian who emphasized the elitist character of all societies and weber the german sociologist who reflected critically on the prospects for human freedom in an age of disenchantment bringing together penetrating intellectual portraits of these great thinkers and close readings of their most consequential texts main currents in sociological thought highlights the historical and intellectual context within which each man wrote and draws out their works enduring insights and influence in the field today
