with an innovative and strongly interdisciplinary theoretical framework this book offers an extensive investigation of the use of audio visuals in exhibition design

this volume constitutes the refereed proceedings of the 6th international workshop on adaptive multimedia retrieval amr 2008 held in berlin germany in june 2008

the book is a collection of essays exploring the potential of multimedia to enrich and transform the planning field by multimedia the authors refer to a broad range of new information and communication technologies from film and video to digital ethnography and the internet which are opening up new possibilities in planning practices processes pedagogy and research the authors document the ways in which these icts can expand the language of planning and the creativity of planners can evoke the lived experience the spirit memories desires of our 21st century mongrel cities by engaging with stories and storytelling and can democratise planning practices the text is epistemologically radical in presenting an argument for the importance of multiple languages ways of knowing in the planning field and making the connection between this epistemology and the almost infinite potential of multimedia to provide varied tools to accomplish this transformation displacing the supremacy of the rational linear and hierarchical with more open playful and imaginative approaches each of the authors brings practical experience with different forms of multimedia use and reflects on the different potentialities offered by multimedia for critical intervention in urban and regional issues and the power dynamics embedded in such interventions

mind museums offers a fresh perspective on the heritage of mental health bringing museums into sharp focus drawing on interdisciplinary approaches from architecture museum and exhibition design and heritage and museum studies it examines former psychiatric asylums that have been converted into museums the book presents a comprehensive investigation of mind museums the first of its kind in europe and explores their potential in raising awareness and dismantling the stigma surrounding mental health through an indepth examination of selected european examples lanz describes what mind museums are and how they came to be the innovative visitor studies carried out at the museo di storia della psichiatria in reggio emilia which are presented here explore people s encounters with mind museums and reveal the profound impact of such experiences by uncovering the power of these heritage sites in facilitating discussions on mental health civility and care lanz provides new insights into the emotive capacity of the museum and visitors reflexivity at place based memory sites mind museums will be of great interest to scholars and postgraduate level students engaged in the study of museums heritage exhibition design architecture and mental health it should also be of interest to heritage professionals particularly those working in mind museums and other similar sites such as prison
