ideal for any student or health care professional who needs an authoritative text that is sharply focused on clinical psychiatry this book contains the most relevant clinical material from the bestselling kaplan and sadock s synopsis of psychiatry 10th edition and includes updated information on recently introduced psychiatric drugs

this book is about the creation and production of textbooks for learning and teaching mathematics it covers a period from antiquity to modern times the analysis begins by assessing principal cultures with a practice of mathematics the tension between the role of the teacher and his oral mode on the one hand and the use of a written printed text in their respective relation with the student is one of the dimensions of the comparative analysis conceived of as the textbook triangle the changes in this tension with the introduction of the printing press are discussed the book presents various national case studies france germany italy as well as analyses of the internationalisation of textbooks via transmission processes as this topic has not been sufficiently explored in the literature it will be very well received by scholars of mathematics education mathematics teacher educators and anyone with an interest in the field

the twentieth century process of secularization does not mean that institutional church and christian ideas were irrelevant for twentieth century societal projects such as the introduction of democracy the improvement of school and education the framing of national identities or in the establishment of welfare states on the contrary this publication is built on the presupposition that secularization runs parallel with the sacralization of the state it can be argued that christianity has been decisive for how the modern european society evolved in the twentieth century e.g. concerning how christian history and christian values were a part of the new national and social imaginary where re enchantment and re sacralization of the state were central elements in this publication the aim is to highlight the role of christianity in the twentieth and twentyfirst century welfare state modernization process with the focus on schooling and education a central perspective is the impact of cultural protestantism during the twentieth century the publication is comparative and will investigate education in norway sweden and the netherlands via chapters on curriculums textbooks politicians and political debates

survey conducted to discover the linguistic difficulties likely to be encountered by migrant schoolchildren and to establish a basis for appropriate english language courses
