there are many fine philosophical and theological engagements with the works of john caputo he is one of our most serious philosophical theologians but he s also hilariously funny to read caputo is to encounter someone who wants to move you to grasp your attention your humor your creativity because what he s looking for is not another philosophical couch potato he s looking for someone who s open to being moved to put down the book even his book especially his book and risk reaching out to help another one who is other one at the margins of this culture he s interested in the kind of courage that there is far too little of and conventional religion he suggests has more than its share of the blame the more familiar one becomes with his work the more one wonders why caputo in all his emphasis upon hermeneutics and responsiveness to the call of the other seemed not to see or perhaps want to claim the many rhetorical gifts in his possession the many rhetorical gifts at work in his writing even as caputo is a master of all things hermeneutical he claims ignorance on all things rhetorical viewing the word itself through an old lens of adding mere ornamentation what he calls rouge to beautify the basic claim bringing the last forty years of work in rhetorical studies to bear on caputo s texts the author has written this book in hopes of convincing caputo and his many students that he

made whether he sees it or not what can only be called the rhetorical turn in philosophy and theology
