Christian sacraments in a postmodern world offers a fresh perspective on the sacramental event by bringing together two generally unrelated subjects in a new way. Sacramental theology and postmodern philosophical thought Osborne shows in an innovative way how these two factors of third millennium life can be positively united to encourage powerful new thinking on the ways we Christians not only theorize about sacraments but also live sacraments using a key section on sacraments from the Catechism of the Catholic Church and by employing foundational concepts of postmodern philosophy and several issues from medieval Franciscan philosophy the author develops a distinctly different approach to sacrament events. Here is a visionary thoughtful work by a major theologian writer and educator it is sure to stir thinking and discussion among theologians philosophers liturgists and religious educators

During the past decade postmodernism has become a much used buzz word for example one hears and reads about postmodern architecture postmodern films a postmodern economy and so forth. What precisely is meant by this term? Life in a postmodern culture attempts to answer this question. In the introduction to the book the relation between the modern and the postmodern world is pointed out. Following this the significance of postmodernity to various dimensions of life is examined. These dimensions include politics art theology economics language science ethics and the cinema

We live in a culture which has broadly rejected the possibility of absolute belief in one overriding truth and yet we are surrounded by people who do believe who indeed are often intensely religious but believe in different things. This fragmentation of culture is a challenge to all major religions given that we have to live together and given that many of our starting points are the same even if our interpretations are different. How do we cope with the practical day to day task of living and thriving in the same socio political environment? This key postmodern dilemma is addressed in this valuable collection of essays by an international team of writers. In a postmodern age can we believe at all if we accept that we are no longer unique? Where does that leave Christian spirituality? British South African and Jewish writers explore ways in which the question of religion impacts on political life in Britain South Africa and Israel

These readings are organized into four sections. The first explores the wellsprings of the debates in the relationship between the postmodern and the enterprise it both continues and contravenes modernism. Here philosophers social and political

commentators as well as cultural and literary analysts present controversial background essays on the complex history of postmodernism the readings in the second section debate the possibility or desirability of trying to define the postmodern given its cultural agenda of decentering challenging even undermining the guiding master narratives of western culture the readings in the third section explore postmodernism's complicated complicity with these very narratives while the fourth section moves from theory to practice in order to investigate in a variety of fields the common denominators of the postmodern condition in action

everyone knows that postmodernism implies pluralism anti foundationalism and generally a postnormative view of the self and reality while many embrace it few bother to tell us what is wrong with modernity what are the problems that brought about its crisis and ultimate demise as a philosophical and cultural movement what are the lessons for the postmodern movement that can be drawn from them james mensch here explains why modernism failed as a viable philosophical enterprise and how postmodernism must be understood if it is to serve as a defensible intellectual project in its stead the heart of mensch's argument is a reversal of the modernist view of the unitary subject as a ground of epistemological and ethical normativity he substitutes for modernism a view beholden to aristotle but adapted to for our present age that sees subjectivity as temporality in a world where subject and object are interactive the result is a pluralism of forms of subjectivity corresponding to the different modes of temporality brought about by the world in a series of analyses on the nature knowing mensch shows how we can embrace both the perspectivism of postmodernism while avoiding the skepticism and relativism that have constantly threatened to undermine its insights

the author presents a two tiered analysis that views postmodern legal thought as both a collective intellectual movement and as the work of particular theorists notably friedrich nietzsche michel foucault jacques derrida francois lyotard and richard rorty he concludes that even though postmodern thought does not give rise to a normative theory of right that can be used as a framework for deciding cases it can focus attention on genealogy and discourse and can empower those who have been denied a voice in the legal system annotation copyrighted by book news inc portland or

in a world in which absolute truth values and authority have lost their place the evangelical church needs most of all to be a beacon of truth and light yet the relativistic mindset of our culture is seeping in pushing aside biblical content to make way for personal experience even in churches that once held firmly to the doctrines of the faith the result a watered down gospel is having little impact on society or individual lives it is a challenge that must not go unmet in a confessing theology for postmodern times twelve confessing christian scholars from various denominational backgrounds provide you with ideas and strategies for rising to that challenge they explore your resources for doing theology in a postmodern world as well as the obstacles and the opportunities it entails there is a crisis of truth in the world this volume is evidence that you can reach out to those who need the life changing message of the gospel and still hold firm to a systematic biblical theology in postmodern times from book jacket

essential reading for all those concerned with contemporary theorizing of organization this important and thought provoking volume explores the implications of postmodernist poststructuralist thinking for organizations and organizational analysis the book introduces the concepts underpinning a postmodern organizational analysis contrasting modern and postmodern forms of explanation and addressing the distinctions between postmodernity and postmodernism succeeding chapters then examine and assess the interplay of major postmodernist themes such as deconstruction desire difference pluralism and relativism with key topics of organizational analysis and research the final section is one of critique as its authors variously argue that postmodernism fails adequately to address the realities of power control and change in a globalizing world

instead of summing up the various perspectives of scholars and the variety of ideas to which the term postmodernism has been assigned this text lets this diversity speak for itself by bringing together articles and essays on the impact of the postmodern temper on an eclectic range of subjects berger presents a few of the many ways different theorists have come to terms with postmodernism while examining manifestations of postmodernism in the culture of everyday life

as a move beyond contextualization to syncretism this work goes on to assess the feasibility of preaching in a postmodern culture which rejects both the idea of absolute truth and authority used as power it traces the historical and philosophical development of postmodernism the enlightenment project is deemed to have failed and christianity is perceived as an oppressive metanarrative in a world that is becoming increasingly sceptical and where preaching practitioners are becoming disillusioned this book offers some guidelines about preaching to postmoderns in a relational age rationality is impotent but the author distinguishes between authoritative and authoritarian preaching allowing hope for the survival of the homiletic task humility is presented as preferable to certitude and persuasion is redefined the author suggests using an inductive mode of communication as a means of engaging postmodern listeners he signposts a way forward in the labyrinthine complexity of the new paradigm and demonstrates that the homiletic task is still feasible thus this book will be of interest to teachers and students of theology as well as pastors desiring to develop a new apologetic strategy
