originally published in 1986 this book consists of 100 problems in probability and statistics together with solutions and most importantly extensive notes on the solutions the level of

sophistication of the problems is similar to that encountered in many introductory courses in probability and statistics at this level straightforward solutions to the problems are of limited value unless they contain informed discussion of the choice of technique used and possible alternatives the solutions in the book are therefore elaborated with extensive notes which add value to the solutions themselves the notes enable the reader to discover relationships between various statistical techniques and provide the confidence needed to tackle new problems

includes cases argued and determined in the district courts of the united states and mar may 1880 oct nov 1912 the circuit courts of the united states sept dec 1891 sept nov 1924 the circuit courts of appeals of the united states aug oct 1911 jan feb 1914 the commerce court of the united states sept oct 1919 sept nov 1924 the court of appeals of the district of columbia
