this book looks at the relationship between the structure of the sentence and the
organization of discourse while a sentence obeys specific grammatical rules the coherence
of a discourse is instead dependent on the relations between the sentences it contains in
this volume leading syntacticians semanticists and philosophers examine the nature of these
relations where they come from and how they apply chapters in part i address points of

sentence grammar in different languages including mood and tense in spanish definite determiners in french and bulgarian and the influence of aktionsart on the acquisition of tense by english french and chinese children part ii looks at modes of discourse showing for example how discourse relations create implicatures and how indirect discourse differs from free indirect discourse the studies conclude that the relations between sentences that make a discourse coherent are already encoded in sentence grammar and that once established these relations influence the meaning of individual sentences
