the use of computing technology for entertainment purposes is not a recent phenomenon
video game consoles home computers and other entertainment media have been used
widely for more than three decades and people of all ages are spending an increasing
amount of time and money on these technologies more recent is the rise of a vibrant
research community focusing on gaming and entertainment applications driven by the
growth and the coming of age of the gaming industry and by its increasing recognition in the
media and the minds of the broader public the study of computer games game
development and experiences is attracting the interest of researchers from very diverse
fields social sciences computing electrical engineering design etc research of this kind looks
to extend the boundaries of gaming technologies in a relentless drive for innovation it
looks to create and understand an ever increasing range of experiences and examine how
games can provide value for educational therapeutic and other serious purposes these
themes were reflected in the call for participation and eventually the papers accepted for
presentation the fun n games conference was the second event of a bi annual series of conferences the first event of the series was held in preston in 2006 organized by the
university of central lancashire following the success of this event it was decided to run a
follow up

this book provides a comprehensive overview of the theoretical issues and existing research in relation to the emotions that learners experience when learning and using a fl highlighting the two emotions under investigation enjoyment and anxiety which are the focus of the empirical research reported later in the book highlighting the crucial role of emotions in the foreign language fl learning process this book reports the findings of a study investigating the relationship between foreign language enjoyment fle and foreign language anxiety fla in the context of polish secondary school students learning english as a fl chapter 1 conceptualizes emotions and introduces their different typologies chapter 2 looks at the constructs of fle and fla while chapter 3 presents findings from a selection of studies on fle fla and the relationship between them chapter 4 describes the rationale for conducting the study and includes a detailed description of the analytical procedures it goes on to present the results of the study the discussion and the study limitations finally chapter 5 highlights the pedagogical implications of the study and suggests some directions for future research the book is of interest to specialists researching the role of emotions in sla as well as to fl teachers looking for realistic recommendations for their work with fl learners

despite the fact that there are around 1 2 million powered two wheelers ptws within the united kingdom riders are often misconceived as living at the edge of society however this is often far from the truth riding a ptw is a high risk activity and those who ride are often perceived as being risk junkies but through an in depth exploration of this leisure activity motorcycling and leisure explains that riders ride because they enjoy it and do not necessarily enjoy the risk involved the book presents a range of contemporary research on riders and how they find enjoyment the book further explores the rider goal of enjoyment and utilises fuller s task homeostasis theory along with csikszentmihalyi s theory of flow to develop an understanding of the interaction between risk and goals in conclusion it develops principles of interventions with the aim of guiding intervention design and reducing the number of motorcycle crashes

case study from the year 2020 in the subject health health system language english abstract the study attempts to explore the impact and challenges of phc delivery system with the intension of generating data for policy and planning the goal of primary health care phc was to provide accessible health for all by the year 2020 and beyond unfortunately this is yet to be achieved in nigeria and seems to be unrealistic in the next decade the phc aims at providing people of the world with the basic health services though

phc centers were established in both rural and urban areas in nigeria with the intention of equity and easy access regrettably the rural populations in nigeria are seriously underserved when compared with their urban counterparts about two thirds of nigerians reside in rural areas therefore they deserve to be served with all the components of phc primary health care which is supposed to be the bedrock of the country s health care policy is currently catering for less than 20 of the potential patients while most phc facilities are in various state of disrepair with equipment and infrastructure being either absent or obsolete the referral system is almost non existent the goal of the national health policy 1987 is to bring about a comprehensive health care system based on primary health care that is promotive protective preventive restorative and rehabilitative to all citizens within the available resources so that individuals and communities are assured of productivity social well being and enjoyment of living the health services based on phc include among other things education concerning prevailing health problems and the methods of preventing and controlling them promotion of food supply and proper nutrition material and child care including family planning immunization against the major infectious diseases prevention and control of locally endemic and epidemic diseases and provision of essential drugs and supplies the provision of health care at phc level is largely the responsibility of local governments with the support of state ministries of health and within the overall national health policy private medical practitioners also provide health care at this level
