microeconomics is the most engaging introductory economics resource available to students

today using real businesses examples to show how managers use economics to make real decisions every day the subject is made relevant and meaningful each chapter of the text opens with a case study featuring a real business or real business situation refers to the study throughout the chapter and concludes with an inside look a news article format which illustrates how a key principle covered in the chapter relates to real business situations or was used by a real company to make a real business decision solved problems in every chapter motivate learners to confidently connect with the theory to solve economic problems and analyse current economic events

psychologists studying cognitive processes and personality have increasingly benefited from the wealth of theory methodology and decision making paradigms used in economics and game theory similarly for the economists personality traits and basic cognitive processes offer a set of coherent explanatory constructs in economic behavior given the debate on preference invariance and behavioral consistency across contexts and domains the papers in this topic shed light on the existence and effect of stable sets of idiosyncratic features on economic decision making while the effects of personality and cognition on economic decisions remain under explored the papers contributed in this topic offer more than a stimulus for further research the general message could be that personality and cognitive processes offer the stable idiosyncratic ground on which individual decisions are made
