from the preface the following book contains six essays regarding psychology as it relates to 1 life 2 physiology 3 education 4 art 5 history and 6 mysticism one fundamental thought controls the book and each essay leads only from a different point to the same central conviction this chief aim is the separation of the conceptions of psychology from the conceptions of our real life psycinfo database record c 2008 apa all rights reserved

psychology third edition builds upon the experience and reputations of phil zimbardo and ann weber with the addition of a new co author bob johnson who has a wealth of teaching experience at the community college level this briefer less expensive book presents psychology in a meaningful manageable format that focuses on the key questions and core concepts of psychology introductory psychology covers such a wide range of topics and issues that it becomes difficult for readers to see the forest for the trees to make key psychological concepts more meaningful the authors found inspiration in a classic chess study this study showed that experts did no better than novices at remembering the location of pieces on a chess board when they were placed randomly only when the patterns represented actual game situations did they make sense and therefore become more easily memorable for the experts clearly meaningful patterns are easier to remember and understand than random arrangements and psychology applies this by presenting the field of psychology in meaningful patterns to enhance comprehension these concepts are then applied to readers own lives study skills and the world around them finally psychology integrates a cross cultural and multicultural perspective to make psychology meaningful for everyone for anyone interested in introductory psychology

psychology concepts and connections brief version will help your students make the connections between key concepts in psychology and the connections between those concepts and their own lives spencer rathus s warm and engaging writing style explains the fundamentals in ways that students can understand and then goes a step further to show how those fundamentals relate to students daily lives rathus s commitment to helping students learn goes beyond the text narrative and is reflected in the text s proven active learning system pq4r preview question read reflect review and recite this system is seamlessly integrated into the book s companion

connections cd rom the book companion site and the study guide all of which are free with every new copy of the text new learning connections and life connections sections in the text also include icons that cue students to interactive content on the connections cd rom and the book companion site this seamless integration of text and technology enhances the active learning system pq4r in the text and gives students multiple ways to connect with the text s current research and relevant applications in this edition rathus invites students to learn about the latest in evolutionary psychology biology diversity and gender issues in psychology in a text that is concise yet thorough

this 2009 update thirty ninth edition of annual editions psychology provides convenient inexpensive access to current articles selected from the best of the public press organizational features include an annotated listing of selected world wide sites an annotated table of contents a topic guide a general introduction brief overviews for each section and an online instructor s resource guide with testing materials using annual editions in the classroom isbn 9780073301907 is offered as a practical guide for instructors annual editions titles are supported by our student website mhcls com online
