discover the untold story of the windy city's ghost shadows even in a town notorious for gangsters like Al Capone much of Chicago's lawless lore has remained uncharted Chicago's Chinatown in particular was home to a vast criminal enterprise strictly bound by old country rituals rules and traditions few know of Moy Dong Chew aka Opium Dong one of Chinatown's original godfathers much less Frank Moyer his fedora wearing predecessor while incidents like the St Valentine's Day Massacre dominated newspaper headlines the Tong Wars were being waged in the shadows author Harrison Fillmore relates the long and sordid history of Chinatown's underbelly from the early 1880s to the late 1980s when a federal indictment essentially ended organized crime's grip on their good citizens

In medieval Europe baptism did not merely represent a solemn and public recognition of the natural birth of a child but was regarded as a second spiritual birth within a social group often different from the child's blood relations a spiritual family composed of godfathers and godmothers by analyzing the changing theological and social nature of spiritual kinship and godparenthood between 1450 and 1650 this book explores how these medieval concepts were developed and utilised by the Catholic Church in an era of reform and challenge it demonstrates how such ties continued to be of major social importance throughout the sixteenth and seventeenth centuries but were often used in ways not always coherent with their original religious meaning and which could have unexpected social consequences in particular the book analyzes in detail the phase of transition from the traditional model of godparenthood which allowed for multiple godparents to the new couple model one godfather and one godmother imposed by Tridentine law drawing upon a large database of archival data taken from parish books of baptisms and marriages pastoral visitations diocesan statutes synods and provincial councils it is shown how attempts were made to resist or to compromise with the church thus providing a better understanding of the often contested meaning given to godparenthood by early modern society whilst the church was ultimately successful in imposing its will the book

concludes that this was to have unexpected results that were to eventually weaken the role of godparents rather than persuading parents to choose real spiritual tutors to act as godparents the choice of godparents became increasingly influenced with social status so that godparenthood began to resemble a pure clientele system something it had never been before through this long term exploration of catholic spiritual kinship much is revealed not only about godparenthood but about the wider social and religious networks comparison with protestant reactions to the same issues provides further insight into the importance of this subject to early modern european society
