this book describes medieval islamic medicine and to explore a specific medical text on the prevention of bodily ills in egypt by ali ibn ridwan a d 998 1068 it seeks to answer the following questions what did it mean to be a doctor in medieval islamic society what was the nature of the medicine that physicians practiced and what was the relationship between physician and patient this book describes medieval islamic medicine and to explore a specific medical text on the prevention of bodily ills in egypt by ali ibn ridwan a d 998 1068 it seeks to answer the following questions what did it mean to be a doctor in medieval i

in mamluks and animals veterinary medicine in medieval islam housni alkhateeb shehada offers the first comprehensive study of veterinary medicine its practitioners and its patients in the medieval islamic world with special emphasis on the mamluk period 1250 1517

in the early islamic world arabic erotic compendia and sex manuals were a popular literary genre although primarily written by male authors the erotic publications from this era often emphasised the sexual needs of women and the importance of female romantic fulfilment pernilla myrne here explores this phenomenon examining a range of arabic literature to shed fresh light onto the complexities of female sexuality under the abbasids and the buyids based on an impressive array of neglected medical religious legal literary and entertainment sources myrne elucidates the tension between depictions of women s strong sexual agency and their subordinated social role in various contexts in the process she uncovers a great diversity of approaches from the 9th to the 11th century including the sexual handbook the encyclopedia of pleasure jawami al ladhdha which portrayed the diversity of female desires asserting the importance of mutual

satisfaction through lively poems and stories this is the first in depth comprehensive analysis of female sexuality in the early islamic world and is essential reading for all scholars of middle eastern history and arabic literature

medieval islamic medicine and medical luminaries while europe was passing through the dark ages a vibrant islamic civilization existed in the middle east driven by the search for knowledge scholars of different ethnicities and religious affiliations worked together to translate the available knowledge of the ancients greek roman indian persian etc into arabic added to it their own experiences preserved it in arabic and delivered it to western civilization during the renaissance in one volume adel k afifi md ms and ronald a bergman phd professors emeriti carver college of medicine university of iowa provide a detailed yet compelling look at the status of medicine of the ancients the pre early and late phases of islamic civilization and the transfer of the accumulated knowledge to the fledgling western civilizations medieval islamic medicine and medical luminaries will delight and fascinate health care professionals historians and casual readers of today s news so much of which includes information from the middle east

this is a study of madness in the medieval islamic world using a wide variety of sources historical literary and art the late michael dols explores beliefs about madness in islamic society and examines attitudes towards individuals afflicted by mental illness or disability the book demonstrates the links between christian and muslim medical beliefs and practices and traces the influence of certain christian beliefs such as miracle working on islamic practices it breaks new ground in analyzing the notions of the romantic fool the wise fool and the holy fool in medieval islam within the framework of perceptions of mental illness it shows that the madman was not regarded as a pariah an outcast or a scapegoat this is a comprehensive and original work with insights into magic medicine and religion that combine to broaden our understanding of medieval islamic society

the first monograph on the history of islamic hospitals this volume focuses on the under examined egyptian and levantine institutions of the twelfth to fourteenth

centuries by the twelfth century hospitals serving the sick and the poor could be found in nearly every islamic city ahmed ragab traces the varying origins and development of these institutions locating them in their urban environments and linking them to charity networks and patrons political projects following the paths of patients inside hospital wards he investigates who they were and what kinds of experiences they had the medieval islamic hospital explores the medical networks surrounding early hospitals and sheds light on the particular brand of practice oriented medicine they helped to develop providing a detailed picture of the effect of religion on medieval medicine it will be essential reading for those interested in history of medicine history of islamic sciences or history of the mediterranean

examines beliefs and practices public health and plague in the medieval world

in sugar in the social life of medieval islam tsugitaka sato explores the actual day to day life in medieval muslim societies through different aspects of sugar drawing from a wealth of historical sources chronicles geographies travel accounts biographies medical and pharmacological texts and more he describes sugarcane cultivation sugar production the sugar trade and sugar s use as a sweetener a medicine and a symbol of power he gives us a new perspective on the history of the middle east as well as the history of sugar across the world this book is a posthumous work by a leading scholar of middle eastern and islamic studies in japan who made many contributions to this field

presents a selection of articles that illustrate the intellectual curiosity and theoretical vigour with which arabs and non arabs living in the medieval muslim world pursued scientific endeavours the focus is firmly on articles published during the last 20 years during which the discipline has enjoyed a new bloom

the author of this text argues that although the islamic and the pre islamic hausa medical systems have much in common their theoretical and conceptual frameworks are different they operate from different understandings of the causes of disease and misfortune and of the appropriate methods to be employed to restore health or alleviate suffering the book also discusses another significant

difference between the islamic and non islamic hausa medical systems the mode of preserving and communicating medical knowledge the early history of islamic medicine is also described and its theories concepts and historical developments are explored

a brief introduction to the history of islamic medicine and its role in european history

this unique reference is the first comprehensive encyclopedia dedicated to the institutions religion politics and culture in muslim societies throughout the world placing particular emphasis on the nineteenth and twentieth centuries the oxford encyclopedia of the modern islamic world contains over 750 articles in four volumes the focus throughout is on the islamic dimension of the muslim experience in recent history and background articles ground the information in its historical context and ensure continuity entries address political and social action as well as formal texts and emphasis is placed on the practice and theory of islam in muslim societies around the globe unlike more limited explorations of islam this work looks at muslim societies in the arab heartland as well as in south and southeast asia and even in europe and the americas thus it is an invaluable resource offering extensive comparative and systematic analyses of islamic beliefs institutions movements practices and peoples on an international scale topical categories covered include history and geography schools of thought religious beliefs theology and philosophy mysticism religious practice devotionism and ritual religious law politics economics culture and society and biographies alphabetically arranged articles range from brief 500 word essays to major interpretive and synthetic treatments of topics such as the islamic state pilgrimage law marriage and foreign relations related entries cover such topics as social and political movements women muslim minorities human rights islam in the west and interreligious affairs truly multidisciplinary this work reflects the breadth and depth of contemporary scholarship in islamic studies combining the tools of the humanities and social sciences to examine the interrelationship of religion politics and culture in muslim societies and to explain the changing realities of muslim life

designed for easy use by both scholars and students the work has an index and an extensive system of cross references that provide easy access to the network of related articles throughout the encyclopedia entries are written by muslim and non muslim scholars from around the world unique in its focus on the modern islamic world this encyclopedia is an invaluable reference for anyone concerned with islam scholars and students of many disciplines government and media analysts who increasingly require an understanding of the muslim world and interested lay readers who are becoming more and more familiar with islamic politics and culture

the story of texts and ideas from ancient greece passing through a monolithic islam enroute to christian europe is now being reconsidered in this book classicists and other scholars point out some of the many paths of transmission of thought their topics include greek myth and arabic poetry at qusayr amra the multi lingual and multi confessional maze of islamic medicine and memories of egypt in medieval venice

a landmark work this history of medical thought from antiquity through the middle ages reconstructs the slow transformations and sudden changes in theory and practice that marked the birth and early development of western medicine editor mirko grmek and his contributors adopt a synthetic cross disciplinary approach that conveys a complete and varied vision of our medical past with attention to cultural social and economic forces as they have affected the historical flow of knowledge and the practice of medicine the various chapters by an international group of scholars isolate key ideas behind the history of medicine in the west charity and aid for the sick medical scholasticism the concept of disease intervention with surgery or drugs and the regimen of health throughout they highlight the links between socioeconomics in general with a focus on the physician and the scientific ideas beliefs and techniques behind prevailing medical practices the result is a multifaceted history unparalleled in its scope of the myriad influences on the development of medical thought and of the impact of that thought on other branches of knowledge and on human behavior across the

centuries
