a must have resource for researchers practitioners and advanced students interested or involved in psychometric testing over the past hundred years psychometric testing has proved to be a valuable tool for measuring personality mental ability attitudes and much more the word psychometrics can be translated as mental measurement however the implication that psychometrics as a field is confined to psychology is highly misleading scientists and practitioners from virtually every conceivable discipline now use and analyze data collected from questionnaires scales and tests developed from psychometric principles and the field is vibrant with new and useful methods and approaches this handbook brings together contributions from leading psychometricians in a diverse array of fields around the globe each provides accessible and practical information about their specialist area in a three step format covering historical and standard approaches innovative issues and techniques and practical guidance on how to apply the methods discussed throughout real world examples help to illustrate and clarify key aspects of the topics covered the aim is to fill a gap for information about psychometric testing that is neither too basic nor too technical and specialized and will enable researchers practitioners and graduate students to expand their knowledge and skills in the area provides comprehensive coverage of the field of psychometric testing from designing a test through writing items to constructing and evaluating scales takes a practical approach addressing real issues faced by practitioners and researchers provides basic and accessible mathematical and statistical foundations of all psychometric techniques discussed provides example software code

to help readers implement the analyses discussed

combining theory and case studies this book explores the factors that influence the academic success of international students in china it emphasizes the importance of cultural understanding and tailored support systems in improving academic outcomes the authors utilize the social cognitive theory sct to examine how students academic outcomes are shaped by personal environmental and behavioral factors especially given the unique challenges in a rapidly globalizing educational environment using a mix of quantitative and qualitative methodologies this book investigates various aspects of academic performance including motivation self regulation and cultural adaptation a key focus is the application of attribution theory which studies how students beliefs about the causes of their academic success or failure affect their motivation and behavior the authors also discuss the impact of institutional factors such as faculty support and the quality of educational resources on student performance the title will appeal to scholars and students interested in student mobility student performance chinese education and international education in china it also serves as a valuable read for educators and policymakers relevant to the context of china s increasing prominence as a destination for international education

extreme sports those activities that lie on the outermost edges of independent adventurous leisure activities where a mismanaged mistake or accident would most likely result in death have developed into a significant worldwide phenomenon brymer schweitzer 2017a extreme sport activities are continually evolving typical examples include base an acronym for buildings antennae span earth jumping and related activities such as proximity flying extreme skiing big wave surfing waterfall kayaking rope free solo climbing and high level mountaineering while participant numbers in many traditional team and individual sports such as golf basketball and racket sports have declined over the last decade or so participant numbers in so called extreme sports have surged although extreme sports are still assumed to be a western pastime there has been considerable global uptake equally the idea that adventure sports are only for the young is also changing as participation rates across the generations are growing for example baby boomers are enthusiastic participants of adventure sports more generally brymer schweitzer 2017b patterson 2002 and generation z turn to extreme sports because they are popular and linked to escapism giannoulakis pursglove 2017 arguably extreme sports now support a multi billion dollar industry and the momentum seems to be intensifying traditional explanations for why extreme sports have become so popular are varied for some the popularity is explained as the desire to rebel against a society that is becoming too risk averse for others it is about the spectacle and the merchandise that is associated with organised activities and athletes for others it is just that there are a lot of people attracted by risk and danger or just want to show off for others still it is about the desire to belong to sub cultures and the glamour that goes with

extreme sports some seek mastery in their chosen activity and in situations of significant challenges this confusion is unfortunate as despite their popularity there is still a negative perception about extreme sports participation there is a pressing need for clarity the dominant research perspective has focused on positivist theory driven perspectives that attempt to match extreme sports against predetermined characteristics for the most part empirical research has conformed to predetermined societal perspectives other ways of knowing might reveal more nuanced perspectives of the human dimension of extreme sport participation this special edition brings together cutting edge research and thought examining psychology and extreme sports with particular attention payed to the examination of motivations for initial participation continued participation effective performance and outcomes from participation references brymer e schweitzer r 2017a phenomenology and the extreme sports experience ny routledge brymer e schweitzer r d 2017b evoking the ineffable the phenomenology of extreme sports psychology of consciousness theory research and practice 4 1 63 74 giannoulakis c pursglove l k 2017 evolution of the action sport setting in s e klein ed defining sport conceptions and borderlines lexington books london 128 146 patterson i 2002 baby boomers and adventure tourism the importance of marketing the leisure experience world leisure journal 44 2 4 10 doi 10 1080 04419057 2002 9674265
